YEAR 2025

Optomed in brief

Optomed is a Finnish medical technology company and a leading manufacturer of handheld fundus cameras and screening software.

Optomed combines handheld fundus cameras with software and artificial intelligence with the aim to transform the diagnostic process of various diseases, such as rapidly increasing diabetic retinopathy. Optomed has offices in Finland, the US and China and the company's products are sold via various sales channels in over 60 countries globally.

CEO REVIEW

The year strengthened our position as a pioneer in innovative fundus imaging solutions.

As we reflect on 2025, Optomed continued progressing from innovation toward broader commercial adoption. During the year, we strengthened our position in handheld retinal screening while further preparing our organization and technology for scalable deployment in routine healthcare use.

The global healthcare environment remains complex, but demand for accessible screening solutions continued to develop positively. Our handheld fundus cameras gained wider clinical acceptance, particularly in primary care and screening settings, supporting our long-term objective of enabling early detection closer to the patient.

During the year, we advanced the rollout of Optomed Lumo, our next-generation handheld fundus camera designed to improve usability, connectivity and workflow efficiency. The new device supports higher-volume screening environments and strengthens our competitiveness as retinal imaging moves beyond specialist clinics.

A key component of screening adoption is the ability to perform diagnosis without specialist interpretation. Our automated screening solution Aurora AEYE enables diabetic retinopathy detection at the point of care and allows healthcare providers to integrate screening into routine workflows. During the year, the utilization of Aurora AEYE increased significantly and we expect the solution to grow strongly as screening adoption expands and the installed device base increases.

The rollout of Optomed Lumo supports our goal of making high-quality fundus imaging and AI-based analysis even more accessible in primary care.

We also removed important barriers to adoption by enabling integrations between Aurora AEYE and electronic patient record systems. In addition, we completed ISO 27001 certification, a key requirement for deploying the solution within healthcare IT environments. These steps were essential prerequisites for scaling the commercial use of Aurora AEYE.

In addition to our screening solutions, our Software segment continued to provide healthcare IT solutions, including imaging management and integration systems such as PACS-type environments that support clinical data workflows. The segment also includes non-healthcare technology consulting, which remained weak during the year due to lower customer demand.

Innovation remains an important part of Optomed's strategy. We continued to advance the broader use of retinal imaging in healthcare and support research around ophthalmics, where retinal data may contribute to detecting systemic diseases and improving preventive medicine. During the coming year, we are planning to introduce new algorithms to be integrated into the Optomed Lumo platform, further expanding the clinical capabilities of handheld screening.

Beyond technology, we remain committed to responsible governance and sustainable operations. We continue developing our processes and organization to support growth and to operate reliably in regulated healthcare environments.

Looking ahead to 2026, our vision remains clear: to make eye screening accessible to all and prevent avoidable vision loss through practical and scalable technology. As screening workflows mature and adoption expands, retinal imaging has the potential to become a routine frontline diagnostic tool in healthcare.

I extend my sincere gratitude to our employees, partners and shareholders for their continued trust and commitment. Together, we continue building the foundation for accessible preventive diagnostics.

Juho Himberg,
CEO

Corporate Governance Statement 2025

OPT^oMED

Corporate Governance Statement

I. Introduction

Optomed Plc (“Optomed” or the “Company”) follows the Finnish Corporate Governance Code 2025 issued by the Finnish Securities Market Association (the “Code”). The Code is available at <http://www.cgfinland.fi/>. Additionally, the company follows, among others, the Finnish Limited Liability Companies Act and other laws and regulations applicable to publicly listed companies in Finland, the company’s Articles of Association, Board and committee charters, corporate policies and rules, as well as rules and guidelines issued by the European Securities and Markets Authority, the Finnish Financial Supervisory Authority and the Nasdaq Helsinki stock exchange.

This Corporate Governance Statement of Optomed has been prepared in accordance with recommendations of the Code. The corporate governance statement has been prepared as a separate report distinct from the Report of the Board of Directors and it is available on the Company’s website www.optomed.com. Optomed’s Board of Directors has reviewed this corporate governance statement. The Company’s external auditor has reviewed that the statement has been issued and that the description of the main features of the internal control and risk management systems pertaining to the financial reporting process is consistent with the financial statements.

Departures from Individual Recommendations

Optomed has not made any departures from the recommendations of the Code.

II. Descriptions Concerning Corporate Governance

Optomed is a Finnish limited liability company. Optomed and its subsidiaries have in total 100+ employees and global operations. The group’s business is managed by the two reportable segments supported by group functions. Optomed is listed on the Nasdaq Helsinki stock exchange.

Optomed uses a single-tier governance model. The responsibility of Optomed’s management lies with Shareholders’ General Meeting, the Board of Directors and the CEO. Their duties are mainly defined in the Finnish Companies Act.

The General Meeting elects the Board of Directors and the Company’s auditor. The Board of Directors appoints the CEO, appoints the Leadership Team members based on the CEO’s proposal, and is responsible for strategic management of the Company. The CEO is responsible for the management of the Company’s operations and governance in accordance with the instructions given by the Board. The CEO is assisted in his work by Optomed Leadership Team.

1. General Meeting of Shareholders

The General Meeting of Shareholders is the highest decision-making body of Optomed. The General Meeting of Shareholders handles the matters required by the Finnish Companies Act or the Articles of Association or presented to it by the Board of Directors. These matters include confirming the Company’s

financial statements and deciding on the distribution of profit, electing the Board of Directors and the auditor and determining their remuneration.

The Annual General Meeting of Shareholders of a company shall be held annually within six months from the end of the financial period. Additionally, extraordinary General Meetings may be held during the year, if required. Optomed publishes the meeting invitations as a stock exchange release and on its website www.optomed.com.

Shareholders have the right to place issues falling within the scope of the Annual General Meeting on the agenda of the Annual General Meeting. The request to place an issue on the agenda must be submitted to the Board of Directors in advance. Optomed publishes the details of how and when to submit the requests to the Board on its website.

General Meetings in 2025

Optomed's Annual General Meeting was held in Espoo, Finland on 9 May 2025.

2. Shareholders' Nomination Board

The Nomination Board prepares the proposals for the General Meeting of Shareholders regarding the election of the Board members and their remuneration. The proposal of the Nomination Board is communicated to the market as a stock exchange release and included in the notice of the Annual General Meeting.

The Nomination Board consists of three natural persons nominated by the shareholders annually. The members of the Nomination Board shall represent the Company's three largest shareholders who (i) represent the largest number of votes out of all shares in the Company on the first banking day of September each year (the "Assessment Day") as determined on the basis of the shareholder register of the Company maintained by Euroclear Finland Oy, and (ii) wish to nominate a member to the Nomination Board. If two or more shareholders have the same number of shares and cannot all have the right to nominate one of the members of the Nomination Board, the right to nominate is determined by

the drawing of lots among such shareholders by the Chairman of the Board of Directors. If a shareholder who would have the obligation to notify the Company of certain changes in shareholding under the Finnish Securities Markets Act (flagging obligation), presents a written request directed to the Board of Directors at the latest on the Assessment Day, the holdings of a corporation or a foundation controlled by such shareholder or such shareholder's holdings in several funds or registers will be combined when calculating the nomination right. A holder of nominee-registered shares will be taken into account when determining the composition of the Nomination Board if the holder of nominee-registered shares presents a written request concerning the issue directed to the Board of Directors at the latest on the Assessment Day. The Nomination Board has a written charter governing its work available at www.optomed.com.

In spite the Company has a Shareholders' Nomination Board, shareholders are entitled to make separate proposals concerning the composition or remuneration of the Board.

Nomination Board in 2025

The shareholders represented in the shareholders' Nomination Board for the purposes of Annual General Meeting 2025 are OP-Rahastoyhtiö Oy (OP funds), SP-Rahastoyhtiö Oy (SP funds) and Danske Invest Rahastoyhtiö Oy. These shareholders have appointed the following persons to the Nomination Board:

- Vesa Vanha-Honko, OP funds
- Petteri Vaarnanen, SP-Rahastoyhtiö Oy
- Ville Kivipelto, Danske Invest Rahastoyhtiö Oy

Vesa Vanha-Honko acts as the chairman of the Nomination Board and Petri Salonen, Chairman of Optomed's Board of Directors, serves as the Nomination Board's expert member.

3. Board of Directors

The Board of Directors is vested with powers and duties to manage and supervise the operations of the Company as set forth in the Finnish Companies Act, the

Articles of Association of the Company and other applicable regulations. The Board of Directors of Optomed is one-tier Board. Optomed Board consists of a minimum of 4 and a maximum of 8 members. The members of the Board of Directors are elected by the Annual General Meeting of Shareholders and the term of office of the members of the Board of Directors expires at the closing of the Annual General Meeting following their election.

The Board of Directors has general competence to decide and act in all matters not reserved for other corporate governing bodies by law or under the provisions of the Company's Articles of Association. The Board of Directors is responsible for the Company's administration and the appropriate organisation of its operations. The Board of Directors decides on Company and Group wide significant matters of principal importance. The Board of Directors appoints and dismisses the CEO, supervises his or her actions and decides on his or her remuneration and other terms and conditions of employment. The Board of Directors also makes decisions on the strategy, key investments, organisation and financial affairs of the Company. In addition, the Board of Directors monitors and assesses the Company's financial performance and position and reviews and approves the Company's interim reports and financial statements. In all situations, the Board of Directors must act in accordance with the best interest of the Company. The Board of Directors constitutes a quorum when more than half of the elected members are present. When this proportion is calculated, disqualified members are excluded.

The Board of Directors has established and approved a written charter for its work to complement the Articles of Association and applicable laws and regulations. The charter of the Board of Directors describes the composition of the Board of Directors and the selection of directors, the responsibilities of the Board of Directors, meeting practices and division of tasks within the Board of Directors. The Board of Directors conducts an annual evaluation of its and its Committees' performance and working methods.

The Board of Directors convenes regularly and at least six times per financial year and as required. The Board of Directors receives current information on

the operations, financial situation, market and competitive situation and risks of the Group in its meetings. Meetings of the Board of Directors are attended by the CEO and the CFO, who acts as the secretary to the Board of Directors.

Diversity Principles

The election and composition of the Board of Directors is guided by the principle of diversity to ensure that the Company has a skilled, competent, experienced and effective Board of Directors. A diverse composition of the Board of Directors supports and caters to the current and future needs in the successful development and growth of the Company.

A diverse composition of the Board of Directors includes complementary education, competence and experience of its members in different professional fields and management of business in different development phases as well as the personal qualities of each Board member, all of which add to the diversity of the Board of Directors.

The Company aims to have, where possible, representatives of different genders in the Board of Directors. As means to achieve a balanced gender distribution in the Board of Directors, the search and evaluation process for Board candidates should include representatives of different genders. The status of diversity and progress in achieving the aforesaid objective will be monitored and reported in the corporate governance statement.

Implementation of Diversity Principles in 2025

In 2025, different genders were represented on Optomed's board. At the end of 2025, two out of seven board members (29%) were from the less represented gender. The company's board includes members from various industries, different countries, and their professional, ethnic and educational backgrounds are diverse.

Board of Directors in 2025

During 2025, the Board of Directors held 10 meetings and the participation percent was 94%.

Name	Citizenship	Independence	Appointed to the Board	Meeting Attendance
Petri Salonen	Finnish	Dependent of the Company	2006-	100%
Sameer Badlani	USA	Independent	2025-	86%
Catherine Calarco	USA	Independent	2023-	100%
Seppo Mäkinen	Finnish	Independent	2019-	100%

4. Committees of the Board of Directors

The Board of Directors may establish specific committees to assist the Board of Directors in the preparation and performance of the Board of Directors' duties and responsibilities and determine their sizes, compositions and tasks.

The Board of Directors has established the following two committees: the Audit Committee and the Remuneration Committee. The Board of Directors has adopted written charters for each committee setting forth the purposes, composition, operations and duties of each committee as well as the qualifications for committee membership. The Board elects the members and the chairman of the committees from among its members. In addition to the Audit Committee and Remuneration Committee, the Board of Directors may appoint ad hoc committees for the preparation of specific matters.

Audit Committee

In accordance with its charter, the Audit Committee assists the Board of Directors in fulfilling its oversight responsibilities of the Company's financial reporting process and in monitoring the statutory audit of the Company and to assist the Board of Directors in its oversight of matters pertaining to financial reporting, internal control, internal audit, risk management and related party transactions, and by making proposals on such matters to the Board of Directors. In addition, the duties of the Audit Committee include, among other things, preparing the election of the auditor, the evaluation of the independence of the auditor and, in particular, the provision of non-audit services they offer to the Company and carrying out other tasks assigned to it by the Board of Directors. Among its other duties, the Audit Committee monitors the efficiency of internal control, internal audit and risk management, and monitors the audit process.

The Audit committee consists of at least three members. The members of the Audit Committee may not take part in the daily management of the Company or the Group and a majority of the Committee members must be independent of the Company, and at least one Committee member must be independent of the Company's significant shareholders.

The Audit Committee as a whole must have the expertise and experience required for the performance of the duties and responsibilities of the Audit Committee. Without limiting the applicable requirements, desirable qualifications for Audit Committee members include appropriate understanding of accounting practices and financial reporting, gained through education or experience in performing or overseeing related functions. At least one Audit Committee member must have competence in accounting or auditing, and the Audit Committee members as a whole must have competence relevant to one or several of the sectors in which the Company operates.

Remuneration Committee

In accordance with its charter, the Remuneration Committee assists the Board of Directors with its responsibilities relating to the evaluation and monitoring of the remuneration of the CEO and other members of the Leadership Team and the preparation of the remuneration policy and remuneration report of the Company's corporate bodies as well as monitors the Company's remuneration policies, schemes and plans. It also assists the Board of Directors in connection with possible major management reorganisations based on preparation and proposals by the CEO. The Remuneration Committee also identifies individuals qualified to serve as the CEO and other members of the Leadership Team of the Company and prepares the appointments and plans the successions related thereto.

The Remuneration Committee consists of at least three members appointed by the Board of Directors. The majority of the members of the Remuneration Committee shall be independent of the Company and the CEO or any executive director of the Company shall not be appointed to the Remuneration Committee.

Committees in 2025:

During 2025 the Audit Committee held 3 meetings and comprised of the following

Member	Attendance/meetings	Independence
Reijo Tauriainen (chair)	100%	Independent
Catherine Calarco	100%	Independent
Sameer Badlani	100%	Independent
Ty Lee	100%	Independent

members at the end of the year:

Anna Tenstam was a member of the Audit Committee until the Annual General Meeting of 2025. Her attendance was 100%.

During 2025 the Remuneration Committee held 2 meetings and comprised of

Member	Attendance/meetings	Independence
Ty Lee (chair)	100%	Independent
Seppo Mäkinen	100%	Independent
Leana Wen	100%	Independent

the following members at the end of the year:

Catherine Calarco was a member of the Audit Committee until the Annual General Meeting of 2025. Her attendance was 100%.

5. CEO and his duties

The Board of Directors appoints the Chief Executive Officer (“CEO”). The CEO is responsible for the management of the Company’s operations and governance in accordance with the Articles of Association, the Finnish Companies Act, other applicable legislation and in accordance with the instructions given by the Board of Directors. The CEO’s service terms are specified in writing in his written service contract.

Juho Himberg (born 1970) has served as the CEO for Optomed since 2023.

6. Optomed Leadership Team

At the end of 2025, the Leadership Team comprised the following members

Name	Position	Appointed	Employee since
Juho Himberg	Chief Executive Officer	2023	2023
Sakari Knuutti	Chief Financial Officer	2019	2019
Markku Myllylä	Vice President, Software	2018	2018 ¹⁾
Laura Piila	Vice President, Devices	2015	2010

1) One of the founders of Commit; Oy (today: Optomed Software Oy) in 1989 and the CEO since 2009.

OPTOMED LEADERSHIP TEAM

Juho Himberg (born 1970) has been the CEO of Optomed and a member of the Leadership Team since 2023. Juho Himberg was most recently the CEO of Aidian. Prior to Aidian, Himberg held leadership positions worldwide at various healthcare and medical technology companies such as Orton, Stryker, C.R. with Bard Inc. and Gambro. He holds a Master of Science in Chemistry from the University of Helsinki and Master of Business Administration from the University of Rochester. He is a Finnish citizen.

Markku Myllylä (born 1961) has been the Vice President, Software of Optomed and a member of the Leadership Team since 2018. He joined Optomed in 2018 through the acquisition of Commit; Oy. Mr. Myllylä is the co-founder of Commit; Oy (presently Optomed Software Oy) and has been the Chief Executive Officer of Optomed Software Oy since 2009. He holds a Master of Science degree in Computer Sciences and Economics from the Technical University of Helsinki. He is a Finnish citizen.

Sakari Knuutti (born 1984) has been the Chief Financial Officer of Optomed since 2022 and a member of the Leadership Team and Chief Legal Officer since 2019. He joined Optomed in 2019. Previously, Mr. Knuutti has held, among others, senior positions at CGI Inc and Affecto Plc. He holds a Master of Laws degree from the University of Helsinki. He is a Finnish citizen.

Laura Piila (born 1983) has been the Vice President, Devices of Optomed since 2019 and a member of the Leadership Team since 2015. She joined Optomed in 2010. Prior to becoming the Vice President of Devices of Optomed, Ms. Piila has held several managerial positions at Optomed, including Quality Manager and Business Development Director, as well as the position of Build Manager at Nokia Corporation. She holds a Master of Science degree in Industrial Engineering and Management from the University of Oulu. She is a Finnish citizen.

Management shareholding at the end of 2025:

Name	Position	Own and controlled shares	Options
Juho Himberg	CEO	30,000	300,000 ¹

III. Descriptions of Internal Control Procedures and the Main Features of Risk Management Systems

Optomed prepares consolidated financial statements and interim reports in accordance with the International Financial Reporting Standards, as adopted by the EU, the Finnish Securities Markets Acts as well as the appropriate Finnish Financial Supervision Authority Standards and Nasdaq Helsinki Ltd's rules. The Report of the Board of Directors of Optomed and parent company financial statements are prepared in accordance with Finnish Accounting Act and the recommendations and guidelines of the Finnish Accounting Board.

Optomed's financial reporting process is mainly managed internally with minor support from an external accounting service provider. Internal control and risk

management systems and practices as described below are designed to ensure that the financial reports as disclosed by the company give correct information about the company finances in all material respects.

Optomed group has reporting manual which includes an overview of financial reporting process, key outputs, and roles and responsibilities within the process. Essential group policies are part of the guidelines. The up-to-date versions of reporting manual and other internal guidelines for financial reporting can be found at group intranet.

Optomed's subsidiaries may have separate finance organization and also business activities are local. Proper arrangement and monitoring of internal control is under the responsibility of the local management in accordance with the group framework.

Optomed group uses a common chart of account and consolidation and reporting application. Subsidiaries submit external financial reporting to the group finance on a monthly basis.

Optomed's Group Finance and Control function has defined the significant processes relevant to internal control over financial reporting, e.g. revenue, purchasing, payroll expenses, project management, finance, and related IT systems. Within this process framework, financial reporting risks and control objectives have been defined and group wide common control points have been designed to mitigate financial reporting risks. Common control points include for example authorizations, key accounting reconciliations, project management procedures, segregation of key financial duties and analysis of financial performance and figures in order to identify any irregularities or errors. Group Finance and Control supports subsidiaries by regular monitoring and by providing additional guidance. The subsidiaries together with the Global Finance and Control conduct annually a self-evaluation of the internal control points, which is then presented to the Audit committee.

Financial reports prepared by the subsidiaries are analyzed by Optomed group finance. Group management and operative segment management have monthly meetings including a review of business operations and financial position for which the segment management prepares a report.

Group and segment-based financial reports are prepared for the Optomed Board on a monthly basis. According its charter, the Board reviews and approves quarterly interim financial reports, financial statement releases and the financial statements.

The Group Finance and Control functions and finance managers of the subsidiaries meet semi-annually to evaluate and adjust the procedures related to financial reporting and internal controls.

1. Overview of the risk management systems

Optomed has a defined risk management policy in place. The objective of Optomed risk management policy is to ensure the implementation of Optomed strategy and to support in achieving company strategic, operational and financial targets. The objective set for risk management is achieved when Optomed has systematically identified the uncertainties, risks and opportunities related to the targets and is able to effectively assess and manage the identified risks. Therefore, risk management is an integral part of Optomed management system. In order to be able to assess its total risk exposure, Optomed upholds a comprehensive risk portfolio including all business areas and functions. Optomed recognizes that controlled risk taking can have a positive effect on achievement of the set targets. Each segment is accountable for owning and managing its risk according to Optomed policies. The CFO is accountable of the risks with respect to financial reporting. Risk identification is performed in all business areas and operative functions of each segment and common functions. Risk identification is conducted by gathering risk data from all business areas and functions by appropriate actions. Risks are assessed and prioritized in terms of severity/impact and probability. Overall risk score is calculated by multiplying these two factors. Each mitigating activity must have a designated owner stated in the risk analysis summary. Risk responses (e.g. control methods, mitigation plans, continuity plans) are systematically defined for all major risks included in the risk portfolio as well as to less significant risks where the cost of measures is in a reasonable proportion to the significance of the risk. Risks are identified constantly and when appropriate necessary changes in the risk portfolio shall be made in order to ensure an up-to-date risk profile of the company.

The group level risk profile is reviewed by the Optomed Leadership team once per quarter. The risk summary prepared by the Leadership Team is then reviewed and approved by the Audit Committee and, as applicable, the Board. This is done as part of the quarterly financial reporting. The Board informs the market about the most significant risks and uncertainties in the financial statements and in the interim reports.

2. Overview of the internal control and internal audit

Internal control aims to ensure that Optomed's business activities are efficient and proficient, financial reporting is reliable and that applicable laws, regulations and company's internal policies are followed.

The Board of Directors and the Audit Committee, which is appointed by the Board, supervise internal control and the risk management pertaining to the financial reporting. The Group CEO and CFO are together responsible for implementing the internal control and risk management together with the Leadership Team, subsidiary management teams and finance directors.

Optomed does not have separate internal audit function, it is an outsourced service. The function is generally coordinated by the Group Finance and Control function together with the Audit Committee. Any audit results are reported by the CFO to the Board's Audit Committee and to the CEO. If necessary, reports can also be addressed directly to the entire Board of Directors.

IV. Other Information

1. Related party transactions

The Board of Directors of the Company has defined the principles regarding the monitoring and evaluation of related party transactions. The Company keeps a list of related parties. Optomed has set related party principles and related party transaction policy.

Transactions with any related parties are entered into on market terms and relevant decisions are taken in compliance with the Company's approval policy and established decision-making limits. The Company's finance and control function monitors related party transactions as a part of the Company's normal reporting and control procedures and reports related party transactions on a quarterly basis to the Audit Committee. The Company's Board of Directors decides on related

party transactions that are not part of the ordinary course of business of the Company or are not concluded on market terms. Information on transactions concluded between the Company and its related parties is disclosed annually in the notes to the Company's consolidated financial statements. In addition, the Company publishes such related party transactions to the extent required pursuant to the applicable legislation and the rules of Nasdaq Helsinki Ltd.

2. Insider administration

Optomed complies with the EU regulation (especially the Market Abuse Regulation, (MAR)) and Finnish legislation, the insider guidelines of Nasdaq Helsinki Ltd and the regulations and guidelines of the European Securities Markets Authority and the Finnish Financial Supervisory Authority. The regulation is supplemented by the Company's own insider guidelines. The compliance is monitored by the Company's own insider administration.

The Company has defined Persons Discharging Managerial Responsibility of the Company (the "PDMRs") to include the members of the Optomed Board of Directors and Optomed Leadership Team. In addition, the Company maintains a list of persons that participate in the financial reporting of the Company (the "Financial Reporting Group").

PDMR Declarations

As per the Company's insider guidelines, both the PDMRs and their related parties must report any transactions with respect to financial instruments of the Company within two business days from the transaction. The Company announces the transactions of PDMRs and their related parties through stock exchange release.

Trading Restrictions

The PDMRs and the Financial Reporting Group are not allowed to trade 30 days before the publication of the Company's financial statement bulletin and interim reports, and on the day of the publication.

Further, in case the Company assesses and resolves to delay a disclosure of a

major project or other matter, the Company establishes a project specific insider list. A person entered in the project-specific insider list is not allowed conduct any trading. Optomed has no permanent insiders.

3. External auditor

The Annual General Meeting of shareholders elects the auditor for a period of one year until the next subsequent Annual General Meeting. The auditor needs to an Authorised Public Accountants firm approved by the Finnish Patent and Registration Office. The auditor is responsible for auditing the consolidated and parent company financial statements and the administration of the parent company.

External Auditor in 2025

In 2025, Optomed's statutory auditor was KPMG Oy Ab, Authorised Public Accountants, with Authorised Public Accountant Heidi Hyry as the auditor with principal responsibility since the Annual General Meeting of 2023. Heidi Hyry is a member of the Finnish Association of Auditor.

The history of fees paid to the auditors is the following:

Remuneration Report for Governing Bodies

OPT^oMED

Remuneration Report for Governing Bodies

This remuneration report for the financial year 2025 has been prepared according to the remuneration reporting section of the Finnish Corporate Governance Code 2025 as well as the provisions of the Finnish Securities Market Act and Limited Liability Companies Act. The remuneration and other financial benefits are reported on a cash basis.

The Annual General Meeting of Optomed Plc (“Optomed” or the “Company”) approved Optomed’s remuneration policy on 10 May 2024 (“Policy”). The remuneration policy is available on the Company’s website on <https://www.optomed.com/investors/>.

The goal of the Policy is to promote the Optomed’s long-term financial performance and sustainable shareholder value creation by attracting, retaining and motivating executive management to drive the Optomed strategy in alignment with all

essential stakeholder interests. The Policy’s overriding objective is to ensure long-term pay-for-performance alignment at Optomed, that rewards for the delivery of Optomed’s strategy in a manner which is simple, straightforward and understandable. The Policy aims to support attracting, retaining and motivating individuals with the suitable caliber to lead Optomed.

The Company has not exercised the right to deviate from the Remuneration Policy nor exercised the option of clawback of remuneration. The following table presents the development of the remuneration of the board of directors and the CEO compared to the development of the average remuneration of employees and to the group’s financial development over the preceding five financial years:

In EUR thousand	2025	2024	2023	2022	2021
Board total remuneration ¹	144	133	131	95	110
CEO remuneration	246	259 ²	181	137	128
Average employee remuneration ³	77	79	73	72	78
Group revenue	17,1M	15,0M	15,1M	14.6M	14.9M
Group EBITDA	-3,5	-3,2	-1,8	-2,0	-2.0

1) Does not include the consultancy fees of Petri Salonen. 2)) includes 31 of CEO severance payment in 2024 3) Optomed's annual reported personnel costs divided by the number of employees.

1. Remuneration of the Board of Directors

The General Meeting of Shareholders determines the remuneration payable to the members of the Board of Directors. The Annual General Meeting held of 2025 approved the following annual fees for the Board members:

- EUR 36,000 for the Chairman of the Board of Directors, and
- EUR 18,000 for each member of the Board of Directors.

Further, the Annual General Meeting approved that a meeting fee in the amount of EUR 300 is paid to the Chairpersons and EUR 200 to the members of the Committees for Committee meeting. 40 percent of the Board of Directors remuneration is paid in Optomed shares and 60 percent in cash. The yearly fees were paid in August 2025 by transferring own shares held by the Company based on an authorization granted by the Annual General Meeting.

In addition to his duties as Board chairman, Petri Salonen also supports the Company as consultant with various matters. In this capacity since September 2020 Petri Salonen has been paid a consultancy fee of EUR 8 (8) thousand a month in addition to his Board fees. In 2025, the fees paid to Petri Salonen amounted to

EUR 98 thousand and in 2024 they amounted to EUR 97 thousand. The fees include VAT. In addition, he has been paid EUR 11 (6) thousand as reimbursement for travel and other expenses in 2025. The consultancy relationship does not entitle Salonen to any benefits or variable pay in addition to the fees. Leana Wen provided consultancy services to the Company before she started her Board position in May 2025. In early 2025, prior to assuming her role as a Board member, she was paid EUR 50 thousand for US-related consultancy services.

The members of the Board of Directors are not included in the incentive schemes of the Company and no shares, option rights or other special rights have been given or granted as remuneration to the members of the Board of the Directors with the exception of the afore-mentioned proportion of their annual fee, which was paid in shares.

No pension benefits have been granted in favor of the members of the Board of Directors.

All figures in thousands of euros

2. Remuneration of the CEO

The remuneration of the CEO of the Company in accordance with the remuneration policy consists of a monthly fixed salary, customary fringe benefits and short and long-term incentives. The Board of Optomed decides on the CEO's remuneration annually within the framework of the Policy and based on the proposal of the Board's remuneration committee.

The remuneration and benefits paid to the CEO during the financial year 2025 are presented in the following table:

	Fixed Salary ¹	Supplementary pension	Short Term Incentive	Sharebased payments	Total
Juho Himberg	215	21	31	0	267

All in EUR thousands 1) include fringe benefits

In 2025, 87% of the total remuneration consisted of fixed pay components and 13 % of variable pay components.

The CEO is entitled to both a long term incentive scheme, and a short-term incentive scheme. Additionally, the CEO is entitled to supplementary pension. The current retirement age for the CEO follows the Finnish Employee's Pension Act. The CEO long-term stock ownership target is 50% of his annual gross salary. At the end of 2025, Juho Himberg owned 30,000 Optomed stocks which complies with the target. The termination period of the CEO contract is 12 months.

Short Term Incentive in 2025

The short-term incentive (STI) performance criteria for 2025 were set by the Board in the beginning of the financial year. These criteria encompassed several financial and strategic objectives. The strategic objectives included various business development and other targets. The maximum bonus for the CEO under the short-term incentive system was EUR 206,400, i.e. approximately 100% percent of the yearly fixed salary, with the largest single target being the revenue

growth target, representing approximately 50 percent of the total compensation. Compensation begins to accrue when revenue exceeds a separately defined minimum level and increases linearly in milestones, reaching 100% of the target level when the set revenue target is met. The second-largest goal is related to cash flows before net working capital changes

Based on the achievement of the targets in 2025, the CEO will be paid a short-term incentive of EUR 89,607, which corresponds to 43% percent of the maximum amount. The payment will be made in 2026. The performance metrics and earned incentives of the short-term incentive scheme are detailed in the table below.

The earning opportunity and performance measures in the short-term incentive plan 2025:

Measure	Weight of the measure (%)	Outcome on the measurement scale	Total earning opportunity (per cent of the fixed annual salary)	Total outcome
Revenue growth	50%	61%	Maximum earning opportunity: 100%	EUR 89,607
Cash flows before Net Working Capital changes	20%	0%		
Measures based on strategic targets and projects	30%	43%		

Long Term Incentive in 2025

During 2025, the CEO received 100,000 options based on option plan 2025A. The purpose of the plan is to retain and incentivize the CEO among other key employees. The subscription price is EUR 3,77 per option. The subscription period is 1 January 2027 – 31 December 2029, after which the program will expire. Should the service relationship of the CEO be terminated the option rights are

automatically transferred to the Company without consideration unless the Board decides otherwise.

Total LTI holdings of the CEO at the end of 2025:

LTI scheme	Subscription period	Subscription price	Number of holdings
2025A	1 January 2027 – 31 December 2029.	3.77	100,000
2024A	1 January 2026 – 31 December 2028.	4.62	150,000
2022A	1 January 2026 – 31 December 2027.	4.17	50,000

Board of Directors' Report and Financial Statements 2025

OPT^oMED

Board of Directors' Report

Optomed in brief

Optomed is a Finnish medical technology company and a leading manufacturer of handheld fundus cameras and screening software. Optomed combines handheld fundus cameras with software and artificial intelligence with the aim to transform the diagnostic process of various diseases, such as rapidly increasing diabetic retinopathy. Optomed has offices in Finland, the US and China and the company's products are sold via various sales channels in over 60 countries globally.

Operating Environment

Optomed operates in the global market for eye examination and treatment devices, which includes fundus cameras, related software, and AI solutions for screening eye diseases. The global fundus camera market exceeded \$473 million in 2020, and its CAGR is expected to grow by more than 3.2% from 2021 to 2027. The fundus camera and eye screening markets are driven by technological advancements, increasing awareness of the importance of eye examinations, an aging population, and favorable government initiatives.¹ The company believes that the market for AI solutions related to retinal imaging will grow clearly faster than the market for medical devices. In addition, through its Software segment, the company operates in the IT market, particularly in Finland and the Baltics.

The advancement of AI in the diagnosis of eye diseases took a significant leap forward in 2021 when a new reimbursement code for diabetic retinopathy screening using AI was introduced in the United States. This new CPT code 92229 "retinal imaging with automated point-of-care" accelerates the use of AI in the US market, as billing for the service is simpler with the new coding. The national

average compensation fee for CPT 92229 in the United States is approximately \$45.69. Compensation fees vary by region depending on applicable cost indices (GPCI). According to the American Association of Ophthalmology, it is estimated that 61 million adults in the United States are at risk of losing their vision, and only half of them have seen an eye doctor in the past 12 months. New technology, such as AI, can be an important step in making eye screenings more convenient and accessible, reaching individuals who are currently outside the screening programs. While AI is not expected to replace doctors, it increases efficiency. Since AI can help detect diabetic retinopathy and macular degeneration, it can help reach patients who are currently missing out on these important examinations.² Outside the US, the company sells both fundus cameras and AI-based solutions globally. The market is growing but remains fragmented in terms of regulation and reimbursement for AI solutions. In these markets, the company primarily utilizes a network of distributors.

In 2024, the handheld AI camera Optomed Aurora AEYE received approval from the United States Food and Drug Administration (FDA), enabling the product's sales and marketing activities in the United States. During 2025, Optomed has focused particularly on the US market and the sales of Aurora AEYE.

During 2025, Group revenue increased by 13.7 percent to EUR 17,096 (15,040) thousand. Devices segment's revenue increased by 43.1 percent while the Software segment's revenue decreased by 2.5 percent. Currency-adjusted revenue growth was 15.4 percent.

The gross margin decreased to 63.6 percent from 64.3 percent last year. US import tariffs began to affect gross margin in the second half of the year.

EBITDA amounted to EUR -3,526 (-3,458) thousand and EBIT was EUR -6,042

(-5,957) thousand. Various one-time consulting and other expenses affected EBITDA by approximately half a million euros.

Net financial items amounted to EUR -676 (441) thousand and consisted mainly of interest income from credit institutions and exchange rate differences between the Chinese renminbi and the US dollar against the euro.

Financial summary per segment

Devices segment

Optomed has two synergistic business segments: Devices and Software. The Devices segment develops, commercializes and manufactures easy-to-use and affordable handheld fundus cameras, that are suitable for any clinic for screening of various eye diseases, such as diabetic retinopathy, glaucoma and AMD (Age Related Macular degeneration).

During 2025, the Devices segment revenue increased by 43.1 percent to EUR 7,620 (5,326) thousand. Devices segment currency-adjusted revenue growth was 48.0 percent. Revenue grew very strongly in the United States, where growth was

supported by several mid-sized device orders, especially in the second quarter of the year. Revenue growth was also supported by the Company's significant growth in the Aurora-AEYE recurring revenue. The Company's global distributor revenue also grew significantly during the year. Revenue in China decreased.

The gross margin increased to 55.8 percent from 52.2 percent. US import tariffs negatively impacted the gross margin. EBITDA was EUR -438 (-1,673) thousand or -5.7 (-31.4) percent of revenue.

In thousands of euro	2025	2024	Change,%
Revenues	7,620	5,326	43.1%
Gross profit *	4,255	2,778	53.2%

Operating margin (EBIT) *, %	-27.8%	-62.8%	

*) Alternative performance measures, see section Alternative Performance Measures for definitions and calculations.

Software segment

Optomed has two synergistic business segments: Devices and Software. The Software segment develops and commercializes screening software for diabetic retinopathy and cancer screening for healthcare organizations. The segment

also distributes off-the-shelf products from selected partners to supplement its own solutions and expertise and provides software consultation to support the Devices segment screening solution projects.

In thousands of euro	2025	2024	Change, %
Revenues	9,475	9,714	-2.5%
Gross profit *	6,623	6,889	-3.9%
Gross margin % *	69.9%	70.9%	
EBITDA	1,281	1,897	-32.5%
EBITDA margin *, %	13.5%	19.5%	
Operating result (EBIT)	453	1,078	-58.0%
Operating margin (EBIT) *, %	4.8%	11.1%	

*) Alternative performance measures, see section Alternative Performance Measures for definitions and calculations.

During 2025 the Software segment revenue decreased by 2.5 percent to EUR 9,475 (9,714) thousand. Healthcare related revenue increased however, the non-healthcare consulting revenue declined significantly during year.

Gross margin was 69.9 (70.9) percent.

EBITDA was EUR 1,281 (1,897) thousand or 13.5 (19.5) percent of revenue. In addition to the aforementioned onetime costs, EBITDA was affected by the weakening profitability of the consulting business as well.

Group-wide expenses

Group-wide expenses consist of functions supporting the entire group such as treasury, group accounting, marketing, legal, HR and IT.

During 2025 Group-wide operating expenses amounted to EUR 4,369 (3,155) thousand. The increase in expenses was driven by various one-time consulting expenses and reward programs.

Balance sheet, financial position and investments

During 2025, the cash flow from operating activities amounted to EUR -2,482 (-1,596) thousand.

Net cash used in investing activities was EUR -2,357 (-2,118) thousand and relates to capitalized development expenses.

Net cash from financing activities amounted to EUR 4,186 (7,081) thousand. On December 10, 2025, Optomed carried out a directed share issue consisting of 1,760,000 new shares of the company. The issue raised approximately EUR 6.0 million in gross proceeds.

Research and development

Optomed is a research and development driven healthcare technology company. The strong focus on research and development has been the core of the operations since the foundation of the company in 2004 and has resulted in a strong international patent portfolio comprising 51 international patents and 14 pending patents. Additionally, Optomed has five registered as well as four pending model protection and 87 registered trademarks.

Optomed's management believes that the strong patent portfolio and continuous development of new camera and software solutions are the most important competitive advantages of the company. Optomed's proprietary and patented technology have resulted in Optomed being able to develop and construct handheld fundus cameras that are able to provide high- quality fundus images. The quality of the images is higher or on the same level as most traditional desktop fundus cameras.

The research and development expenditure totaled EUR 3,847 thousand, representing 22.5 percent of revenue in 2025, compared to EUR 3,819 thousand or 25.4 percent of revenue in 2024.

In thousands of euro	2025	2024
R&D expenditure	3,847	3,819
As percentage of revenue	22.5%	25.4%

Non-financial information

Environment, Social and Governance (ESG) related matters are an integral part of Optomed's operations. The company is still rather small which enables the management to take ESG matters into consideration efficiently. Optomed has identified manufacturing as one of its key ESG elements and the key ESG related risks are within the scope of manufacturing. Therefore, the ESG matters are taken into account when making resolutions with regards to manufacturing. Currently, Optomed's devices are manufactured by an ESM partner that is a NYSE listed entity with its own strict sustainability requirements and reporting. This gives Optomed visibility and assurance that ESG matters are taken into account with regards to its device manufacturing.

Optomed has implemented a governance structure required for the Nasdaq Helsinki main list and implemented significant amount of policies, including the code of conduct and whistleblowing that all employees are expected to follow. The code of conduct also highlights Anti-Bribery and Corruption (ABC) matters as they have been assessed to be extremely important due to the global nature of Optomed's operations. The governance function has been strengthened significantly and new expertise has been brought to the board and audit committee. The governance structure is described in detail in Optomed's Corporate Governance Statement.

Health technology is a regulated sector which also contributes to the company's ESG approach. Optomed complies with RoHS, REACH, conflict mineral regulations and all applicable privacy, consumer protection and product safety regulations.

Optomed's compliance with respect to various medical devices related regulations is also audited by third parties regularly.

Personnel, management and legal structure

Personnel

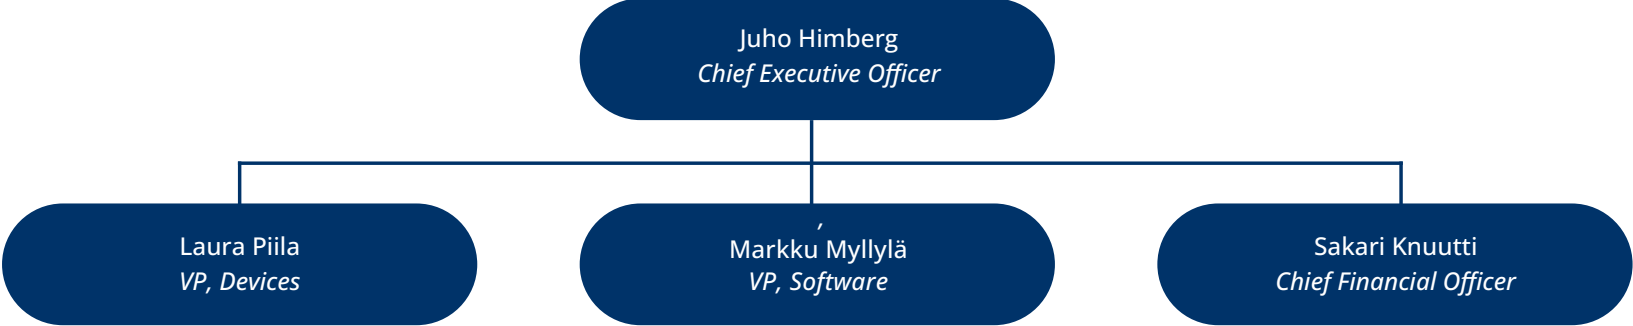

On 31 December 2025, Optomed had a total of 111 employees, of which a significant number worked in expert roles. The employee contracts are mostly permanent contracts.

Number of employees	2025	2024
Average number of employees	114	112

At the end of the review period, Optomed's Chairman and Members of the Board of Directors controlled 63,139 shares, representing approximately 0.29 percent

of the total number of all shares. The CEO and management team owned 60,000 shares and 713,125 options.

Shareholders agreements

The company is not aware of the existence of any Shareholders' agreements and it is not controlled by anyone.

Additional information with respect to the shares, shareholding and trading can be found on the company's website www.optomed.com.

Authorizations

The Company's annual general meeting held 10.5.2025 approved following authorizations for the Board of Directors.

The Annual General Meeting approved the authorization for the Board of Directors to repurchase Optomed's own shares and to accept them as pledge. Altogether no more than 1,969,330 shares may be repurchased or accepted as pledge. The authorization will be valid until the earlier of the end of the next Annual General Meeting or 18 months from the resolution of the Annual General Meeting.

The Annual General Meeting authorized the Board of Directors to decide on the issuance of shares and other special rights entitling to shares referred to in Chapter 10, Section 1 of the Finnish Companies Act. The number of shares to be issued based on this authorization may not exceed 1,969,330.

The Board of Directors is authorized to resolve on all terms and conditions of the issuance of shares and special rights entitling to shares, including the right to derogate from the pre-emptive right of the shareholders. The authorization will be valid until the earlier of the end of the next Annual General Meeting or 18 months from the resolution of this Annual General Meeting.

Average share price	3.99	4.74	3.45
Closing share price	3.77	4.66	3.72
Market value of shares at end of period	80,879	91,771	67,445
Weighted average adjusted number of shares during the financial period	19,558,287	17,874,677	15,949,241
Weighted average adjusted number of shares in the end of financial year	19,810,521	18,675,167	16,706,508

Calculation of share indicators

Earnings per share	Net result / Weighted average number of outstanding shares
Equity per share	Shareholders' equity / adjusted number of shares at the end of the financial period - own shares
Dividend per share	Total dividend / adjusted number of shares at the end of the financial period - own shares
Dividend, % of earnings	Dividends per share / earnings per share × 100
Effective dividend yield, %	Dividend per share × 100 / adjusted share price at the end of the financial period
P/E ratio	Market value per share/ earnings per share

Option programs

Optomed has established several option programs as incentive programs covering employees, managing directors and consultants of the group.

Optomed's amended option programs are described below.

Each option entitles its owner to subscribe for one (1) new, or if the company's Board of Directors so decides, existing A share in the company or if the company would only have one class of shares, as is the case following the Listing, such shares. The share subscription prices, and the exercise periods are set out in the terms and conditions of the options.

The dividend right of the new shares and other shareholder rights will commence after the shares upon exercise of the relevant option are recorded into the Trade Register, or if existing shares of the company are being issued, upon completion of the transfer of the share provided that the transfer has been fully paid.

The options are forfeited and automatically transferred to the company without consideration if the employment or service relationship to the group is terminated, for any reason whatsoever, or if the consulting agreement regarding the option holder's work performed for the group is terminated for any reason whatsoever, unless the Board of Directors decides to deviate from the main rule.

Program	Subscription price (EUR)	Exercise Period	Outstanding options at the end of 2025
2017B	3.5	1 July 2020 – 31 December 2027	29,300
2018C	3.5	1 July 2020 – 31 December 2027	93,800
2019A	3.5	1 July 2021 – 31 December 2027	66,000
2019C	3.5	1 July 2020 – 31 December 2027	20,000
2022A	4.17	1 January 2026 – 31 December 2027	196,125
2024A	4.62	1 January 2026 – 31 December 2028	237,500
2025A	3.77	1 January 2027– 31 December 2029	190,000
Total			832,725

Decisions of the annual general meeting

The Annual General Meeting held on 9 May 2025 adopted the financial statements for the financial period ended on 31 December 2024, discharged the members of the Board of Directors and the CEO from liability for the financial period ended on 31 December 2024 and adopted the Company's Remuneration Report.

The Annual General Meeting resolved in accordance with the proposal of the Board of Directors that no dividend will be paid for the year 2024.

The number of members of the Board of Directors was confirmed as seven. Catherine Calarco, Ty Lee, Seppo Mäkinen, Petri Salonen and Reijo Tauriainen were re-elected and Leana Wen and Sameer Badlani were elected as new members of the Board.

The Annual General Meeting confirmed the annual Board remuneration as follows:

Chairman of the Board EUR 36,000
members of the Board EUR 18,000.

In addition, a meeting fee in the amount of EUR 300 is paid to the Chairpersons and EUR 200 to members of the Committees for each Committee meeting. 40 percent of the Board remuneration is paid in Optomed shares and 60 percent in cash. The part of the Board remuneration paid in Optomed shares will, if possible, be conveyed from the treasury shares of the Company in accordance with the authorization of the Board of Directors to resolve on the issuance of shares and special rights entitling to shares. The remuneration will be paid once a year in August, after Optomed's H1 report has been announced.

The Annual General Meeting decided to re-elect KPMG Oy Ab, a firm of authorized public accountants, as the Company's auditor. KPMG Oy Ab has informed the Company that Authorized Public Accountant Heidi Hyry acts as the auditor with principal responsibility. The auditor's remuneration will be paid in accordance with an invoice approved by the Company.

The Annual General Meeting approved the authorization for the Board of Directors to repurchase Optomed's own shares and to accept them as pledge. Altogether no more than 1,969,330 shares may be repurchased or accepted as pledge. The authorization will be valid until the earlier of the end of the next Annual General Meeting or 18 months from the resolution of the Annual General Meeting.

The Annual General Meeting authorized the Board of Directors to decide on the issuance of shares and other special rights entitling to shares referred to in Chapter 10, Section 1 of the Finnish Companies Act. The number of shares to be issued based on this authorization may not exceed 1,969,330. The Board of Directors is authorized to resolve on all terms and conditions of the issuance of shares and special rights entitling to shares, including the right to derogate from the pre-emptive right of the shareholders. The authorization will be valid until the earlier of the end of the next Annual General Meeting or 18 months from the resolution of this Annual General Meeting.

At its meeting held after the Annual General Meeting, the Board of Directors elected from among its members Petri Salonen as its Chairperson. The committee members were elected as follows:

Audit Committee:

Reijo Tauriainen (Chairperson)
Sameer Badlani
Catherine Calarco

Remuneration Committee:

Ty Lee (Chairperson)
Seppo Mäkinen
Leana Wen

Risks and uncertainties

GEOPOLITICS

Optomed operates globally.

Geopolitical tensions may impact the competitiveness of Optomed's supply chain or sales, leading to increased costs or causing potential disruptions for example in the form of tariffs. Optomed's devices are manufactured in Thailand and one of the key markets is in the US and, therefore, potential large tariffs between the US and Thailand may have a negative effect on the Company's business prospects in the US.

HIGH QUALITY PRODUCTS

The quality and safety of the Company's products are extremely important for Optomed's competitiveness.

The Company may be adversely affected if it fails to continuously develop and update its fundus cameras and software solutions or to identify or integrate new products and product platforms into its offering. The Company's or its partners' products may also be subject to clinical trials, the results of which are critical for the products' regulatory approvals and market acceptance.

STRATEGY AND M&A

The Company may be unsuccessful in fulfilling its strategy or the strategy itself may be unsuccessful.

The successful implementation of the Company's strategy depends upon a number of factors, some of which are completely or partially outside the Company's control. The Company has an appropriate risk management function in the context of the size of the Company's operations, however, it may not be able to identify or monitor all relevant risks and determine efficient risk management procedures and responsible persons that may again affect the strategy. The Company is also dependent on its ability to develop and manage varying routes-to-market for its products, the efficiency of its sales channels and its customer and distributor relationships. Further, the Company has an opportunistic view on M&A which by nature include inherent risks. Failure of strategy may force the Company to record write-downs on its goodwill.

MARKET AND COMPETITION

Optomed operates in a niche market that is highly competitive.

Optomed operates in the fundus camera market that is developing fast and the competition is sometimes fierce. The market acceptance of the Company's products and solutions is important for our future growth. Optomed recognizes a possibility of new market changing products entering the market. Further, in certain key geographies the client base is limited and, therefore, a loss of a key customer in a key market may adversely affect our revenue streams. In the US, AI based diabetic retinopathy screenings are reimbursable, and screenings affect HEDIS scores. If there are material changes to reimbursement levels or to the impact on HEDIS scores, it could adversely affect the Company's revenue and growth prospects in the US.

EXTERNAL ECONOMIC AND POLITICAL RISKS AND NATURAL DISASTERS

Optomed operates globally and is thus exposed to various external risks.

The Company is exposed to natural disasters taking place in countries where it operates and general and country specific economic political and regulatory risks, which could entail volatile sales in key markets.

SUPPLY CHAIN

Optomed's business is dependent on the effectiveness of purchasing materials, manufacturing and timely distribution.

The Company is dependent on contract manufacturers for functioning, efficient and effective production and product assembly. Further, the Company is dependent on suppliers which may affect the Company's ability to supply its customers in a timely manner. In addition, Optomed generates significant US recurring revenue from the Optomed Aurora AEYE solution through a revenue-share model with the AI partner, and therefore the loss or termination of this agreement would pose a material growth related risk to the Company.

SYSTEMS AND INFORMATION

Our operations are increasingly dependent on IT systems.

Disruption of the Company's IT systems could inhibit our business operations in a number of ways, including disruption to financial reporting, sales, production and cash flows.

LITIGATION

Optomed operates globally and is subject to the laws and regulations of multiple jurisdictions.

The Company may be negatively affected by legal or administrative proceedings in different countries directed at the Company or third parties due to back-to-back liability, and the Company faces, from time to time, other disputes and claims related to product liability and intellectual property rights, especially in terms of medical devices in different countries that the Company must consider pursuant to applicable laws. These can result in costs and liabilities for the Company and have a negative effect on its financial position and business prospects.

TRADE SECRETS AND PATENTS

The technologic capabilities are a competitive advantage that the Company must be able to protect.

Technological capabilities, trade secrets and patents are important for the Company's competitive position, and the Company continuously monitors its IPR portfolio. The Company may not be able to protect its trade secrets and know-how which could lead to losing the competitive advantage the Company has. The Company may also be forced to take actions against parties that violate our IPRs and correspondingly to defend against claims for infringing IPR's of other parties, or seek to agree on the use of IPRs. If the Company is not successful in protecting its IPRs or fails to defend against claims of IPR infringements or to agree on the use of IPRs on favourable terms, this can have a negative effect on the Company's financial position and its prospects.

TALENT & ORGANISATION

A skilled workforce and agile organisation are essential for the continued success of our business.

The Company may be adversely affected if it would lose its key personnel or fails to attract the right talent.

FINANCE

The Company needs external financing to operate and is not currently profitable.

The Company is dependent on external financing and the Company may have difficulties accessing additional financing on competitive terms or at all which may again contribute the Company's liquidity risks. The Company is also subject to credit and counterparty risks through its trade receivables.

FOREX

Optomed operates globally and are thus exposed to currency exchange risks.

The Company is exposed to foreign exchange rate risks arising from fluctuations in currency exchange rates, especially with regards USD, EUR and RMB. Currency rates, along with demand cycles, can result in significant swings in the prices of the raw materials needed to produce our goods and our sales prices and OPEX.

LEGAL AND REGULATORY

Compliance with laws and regulations is an essential part of Optomed's business operations.

Optomed together with its suppliers and distributors operate globally and are subject to various national and regional regulations in the areas of medical devices, product safety, product claims, data protection, intellectual property rights, health and safety, competition, employment, taxes and anti-money laundering and anti-bribery & corruption (AML & ABC). Further, many of the Company's devices are subject to various medical related assessment (including clinical trials), clearance and approval processes that are required to place our products the market. Failure to comply these might lead to loss of sales permits in different markets, product recalls, reputational issues, civil and criminal actions leading to various direct and indirect damages to Optomed and its employees that are

not completely covered by Optomed's insurance coverage. Especially, failures with respect to compliance with certain medical devices related regulations and processes may hinder the Company's devices' market access.

Disputes

According to the understanding of the company board of directors ,the company is not currently involved in any disputes or trials that would have a significant impact on the group's financial position.

Major events after the review period

Optomed has renegotiated its OP loans and government loans payment terms. Based on the decisions received government loans were extended two years and OP loans 6 to 12 months.

The board's proposal for the distribution of profit

The parent company's non-restricted equity on 31 December 2025, was EUR 28,713,076.88 and the net loss for the financial year was EUR -5,573,210.42. The Board of Directors proposes to the Annual General Meeting that no dividend will be paid and the non-restricted equity on the outstanding 21,453,297 shares shall be retained and carried forward.

Outlook 2026

Optomed expects its full year 2026 revenue to grow compared to 2025.

Notes to the consolidated financial statements

OPT^oMED

1. Corporate information and basis of accounting

1.1 Corporate information

Optomed is a Finnish medical technology group (hereafter 'Optomed' or 'Group') that specialises in hand-held fundus cameras and solutions for screening of blinding eye diseases, established in 2004.

The Group's parent company, Optomed Plc. (hereafter the 'Company') is a Finnish public limited liability company established under the laws of Finland, and its business ID is 1936446-1. It is domiciled in Oulu, Finland and the Company's registered address is Yrttipellontie 1, 90230 Oulu, Finland.

The Board of Directors of Optomed Plc approved these consolidated financial statements for issue. According to the Finnish Limited Liability Companies' Act, the shareholders have the right to approve or reject the financial statements in the Annual General Meeting held after the publication of the financial statements. Furthermore, the Annual General Meeting can decide on modifications to be made to the financial statements.

1.2 Basis of accounting

Optomed's consolidated financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and in force as at December 31, 2025. In the EU IFRS are standards and their interpretations adopted in accordance with the procedure laid down in regulation (EC) No 1606/2002 of the European Parliament and of the Council. Optomed has consistently applied these policies to all the years presented (2024-2025), unless otherwise stated.

General policies applied that relate to the consolidated financial statements as a whole are described in this section 1.2. Accounting policies that are specific to a component of the financial statements, together with descriptions of management judgements, related estimates and assumptions, have been incorporated into the relevant note.

The consolidated financial statements are prepared on a historical cost basis, except for the following that are measured at fair value (refer to 1.2.3 Measurement of fair values below):
share-based payments

The financial year of Optomed is the calendar year. The figures in the financial statements are mainly presented in thousands of euro. All figures presented have been rounded, and consequently the sum of individual figures may deviate from the presented aggregate figure. Key figures are computed using exact figures.

1.2.1 Consolidation

The consolidated financial statements incorporate the financial statements of the parent company Optomed Plc. and of all those subsidiaries over which the parent company has control at the end of the reporting period. Optomed controls an entity when Optomed is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Acquired subsidiaries are consolidated from the date on which control is transferred to Optomed until control ceases. Refer to Note 23. Related party transactions for disclosures on the Group structure.

Intra-group transactions, receivables, liabilities and unrealized margins, as well as distribution of profits within the Group, are eliminated in preparing the consolidated financial statements. Optomed had no non-controlling interests (NCI) during the financial years in the report.

Acquired or established subsidiaries are accounted for by using the acquisition method.

1.2.2 Foreign currency transactions and balances

Items included in the financial statements of each subsidiary are measured using the currency of the primary economic environment in which the company operates ('the functional currency'). The consolidated financial statements are presented in Euro, which is the functional and presentation currency of the parent company.

For those subsidiaries with non-Euro functional and presentation currency, the income and expenses for the income statement and comprehensive income statement, and the items for cash flow statement, are translated into Euro using the average exchange rates of the reporting period. The assets and liabilities for the balance sheet are translated using the exchange rates prevailing at the reporting date. The translation differences arising from the use of different exchange rates explained above are recognized in consolidated other comprehensive income.

Any goodwill arising on the acquisition of foreign operations and any fair value adjustments to the carrying amounts of assets and liabilities arising on the acquisition of those foreign operations are treated as assets and liabilities of those foreign operations. They are translated into Euro using the exchange rates prevailing at the reporting date. When a foreign operation is sold, or is otherwise partially or completely disposed of, the translation differences accumulated in equity are reclassified in profit or loss as part of the gain or loss on the transaction.

1.2.3 Measurement of fair values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability; either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Specific valuation techniques used in fair value measurement include:

- Share-based payments – Black-Scholes option pricing model (Note 6.4 Share-based payment plans)

1.2.4 Operating result

Optomed has determined operating result to be a relevant subtotal in understanding the Group's financial performance. However, IFRS does not define the concept of operating result. The Group has defined it as follows: operating result is the net amount attained when revenues are added by other operating income, less:

- purchase expenses, adjusted with change in inventories
- employee benefit expenses
- depreciation, amortization and any impairment losses, and
- other operating expenses.

All other items are presented below operating result in the income statement.

1.2.5 Non-current assets held for sale

Non-current assets (or disposal groups) are classified as held for sale, if their carrying amounts are to be recovered principally through a sale transaction rather than through continuing use. From the date of classification, these assets (or disposal groups) are measured at the lower of their carrying amounts and fair value less the costs to sell, and the recognition of depreciation or amortization is discontinued.

1.2.6 Critical management judgments and related estimates and assumptions

The preparation of financial statements under IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the end of the reporting period as well as the reported amounts of income and expenses during the reporting period. These estimates and assumptions are based on historical experience and other justified assumptions, such as future expectations, that Optomed management believes are reasonable under the circumstances at the end of the reporting period and the time when they were made.

Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates. The estimates and underlying assumptions are reviewed on an on-going basis and when preparing financial statements. Changes in accounting estimates may be necessary if there are changes in the circumstances on which the estimate was based, or as a result of new information or more experience. Such changes are recognized in the period in which the estimate or the assumption is revised.

Use of judgment and estimates

Judgements that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognised in the financial statements, relate to the following areas:

- capitalisation of development costs: determination of development expenditure eligible for capitalisation (Note 12. Intangible assets)
- Camera lease period: determination of camera lease period (13. Tangible assets)
- leases: determination of lease term (Note 14. Leases)

Assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year are the following:

- goodwill impairment testing (Note 12. Intangible assets)

- capitalisation of development expenditures (Note 12. Intangible assets)
- Development expenditures impairment testing (Note 12. Intangible assets)
- Determining trade receivables credit risk (Note 21. Financial risk management)

1.2.7 Adoption of new and amended standards in future financial years

Optomed has not yet adopted the following amended standards and interpretations already issued by the IASB. The Group will adopt these pronouncements as of the effective date of each of the pronouncements, or if the effective date is not the first day of the financial year, as of the beginning of the next financial year following the effective date. Currently Optomed believes that the adoption of these pronouncements will not have a significant effect on the future consolidated financial statements.

For financial years beginning on or after January 1, 2026: Amendments made to IAS 7, IFRS 1, IFRS 7, IFRS 9, and IFRS 10 have not had material impact on these financial statements.

2. Segment reporting

2.1 Accounting policy

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses and for which discrete financial information is available. Optomed has two reportable segments, Devices and Software.

Software segment offers products for optimal management of various screening operations as well as IT solutions and services for storing, viewing and working with medical images. Also professional IT consulting services for government institutions are included in this segment. Currently it comprises own screening

solution products for diabetic retinopathy and breast, cervical and bowel cancer screening management. Optomed works also as distributor of Sectra software solutions

The Devices segment develops, manufactures and sells solutions for the identification of ophthalmic diseases and systemic health diseases using Optomed fundus cameras and their integrated artificial intelligence algorithms. Clients include professionals in primary health care, ophthalmology, pediatrics, endocrinological diseases and neurology fields. Optomed subsidiaries Optomed USA and Optomed China are part of devices segment. In addition, Optomed acts as a reseller of artificial intelligence algorithms for several companies.

Currently Devices segment comprises all Optomed branded camera products, such as Optomed Smartscope Pro, Optomed Aurora, Optomed Aurora AEYE, Optomed Polaris and Optomed Lumo cameras. Also products for OEM customers such as Volk Optical, Carl Zeiss Meditec and Topcon are included in the Devices segment.

In Optomed Group the CEO has been identified as being the chief operating decision maker responsible for assessing performance of the segments and making resource allocating decisions. The segment disclosures presented are based on the internal management reporting. Optomed has not aggregated operating segments into reportable segments.

2.2 Reportable segments

2025

In thousand of euro	Devices	Software	Group Admin	Group, Total

Capital expenditure	1,424	496	56	1,975
Segment liabilities	557	412	239	1,208

2.3 Geographic information

In presenting the geographic information, segment assets were based on the geographic location of the assets. Segment assets are measured in the same way as in the IFRS financial statements.

In thousands of euro	2025	2024
Finland	15,561	15,661
Rest of the Europe	0	0
Rest of the World	634	411
Total	16,195	16,073

Group's non-current assets exclude financial instruments and deferred tax assets. Optomed has no defined benefit pension plans and thus no related assets.

Disaggregation of consolidated revenue by geographical market is disclosed in Note 3.2 Disaggregation of revenue.

2.4 Major customers

The Group's revenues from two major customers in the financial years 2024-2025 were approximately as follows: from one customer EUR 2.1 million (2025), and EUR 2.5 million (2024), and from another customer EUR 2.4 million (2024) and EUR 2.0 million (2024).

3. Revenue

3.1 Accounting policy

Optomed has two synergistic business segments: Devices and Software. The Devices segment develops, commercializes, and manufactures easy-to-use,

and affordable handheld fundus cameras, that are suitable for any clinic for screening of various eye diseases, such as diabetic retinopathy, glaucoma and AMD (Age Related Macular Degeneration).

The Software segment develops and commercializes screening software for diabetic retinopathy and cancer screening for healthcare organizations. The segment also distributes off-the-shelf products from selected partners to supplement its own solutions and expertise and provides software consultation to support the Devices segment screening solution projects.

Optomed recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which Optomed expects to be entitled in exchange for those goods or services.

Devices segment leases and sells medical imaging tools and solutions to distributors and end customers. The agreements with distributors are frame agreements. An enforceable contract is created based on each purchase order combined with the frame agreement. Service agreement include combination of a device and an artificial intelligence application, in which the ownership of the device as part of the service remains at Optomed. Contracts are made with end customers.

Typical sales agreements for the Software segment include maintenance service agreements, resource hiring agreements, service portal agreements and software package agreements.

For Devices segment medical imaging tools and solutions each product in a purchase order forms a separate performance obligation when:

- the customer can benefit from the good on its own, and
- the promise to transfer the good to the customer is separately identifiable from other promises in the contract. Extended warranty may be sold separately, it is also a separate performance obligation.

In service agreements, contracts include one performance obligation, which includes the comprehensive services agreed for a specific period.

For Software segment:

— A maintenance contract has one performance obligation containing overall service for the period agreed upon.

A resource hiring contract is based on hourly fee. Each hour of consulting service is a separate performance obligation.

— A service portal agreement includes the following separate performance obligations: implementation, additions for new service providers, reconfigurations and continuous service provided.

— A software package agreement includes the following separate performance obligations: licences, implementation and continuous maintenance service.

Transaction prices in the contracts are mostly fixed. Some contracts may, however, include a minimum amount for transactions in a certain period, for example.

The variable fee is constrained to the amount for which it is highly probable that a significant reversal will not occur subsequently. The terms of payment applied vary to some extent geographically and in different business areas, but the term of payment provided is nonetheless always clearly less than a year. Consequently, contracts do not include a significant financing component.

Optomed allocates the transaction price for medical imaging tools and solutions to performance obligations based their stand-alone selling prices using price lists. For service portal and software package contracts the transaction price is allocated based on costs incurred plus margin.

For Devices segment the revenues from sales of medical imaging tools and solutions are recognised when the performance obligation is satisfied by transferring a promised good to the distributor, i.e. at a point in time. The control is transferred when Optomed has present right to payment, significant risks and rewards of ownership have transferred to the distributor as well as the legal title and physical possession of the products.

For recurring revenue service agreements, revenue is recognized in the reporting period during which the service is provided. The transaction prices of agreements

are usually fixed. However, some contracts may include transaction-based pricing for a specific time period.

In respect of Software segment:

— Service revenues are recognized over time as the customer simultaneously receives and consumes the benefits provided by Optomed's performance.

— Revenues from implementation projects are recognized at a point in time when the customer gets control and is able to start using the end product.

— License revenues are recognized at a point in time, when control is transferred to the customer. This is based on the nature of the licenses: they involve granting the right to use the intangible assets of the Software segment as they exist (in form and functionality) at the time the license is granted to the customer.

3.2 Disaggregation of revenue

In the following tables, consolidated revenue is disaggregated by geographical market and timing of revenue recognition.

In thousands of euro	2025		2024	
Finland	9,149	54%	9,340	62%
Rest of the Europe	1,406	8%	1,034	7%

Total	17,096	100%	15,040	100%

	2025		2024	
Products and services transferred at a point in time	11,418	67%	10,405	69%
Services transferred over time	5,678	33%	4,635	31%
Total	17,096		15,040	

Trade receivables and related credit losses are described in Notes 16. Financial assets and 21.5 Liquidity risk.

3.3 Advances Received and Deferred Revenue

Advances received and deferred revenue are related to the advance payments received under Optomed's service agreements, maintenance agreements, and delivery agreements before the performance obligation is fulfilled or when customer invoicing exceeds the recognized revenue. Advances received and

deferred revenue are classified as liabilities based on customer agreements and are recognized as revenue once Optomed has fulfilled its performance obligations. The company is obligated to repair or replace the device under warranty.

In thousand euros	31.12.2025	31.12.2024
Trade receivables	2,756	2,411
Assets related to customer contracts	2,756	2,411
Advances received	133	98
Deferred Revenue	545	305
Liabilities related to customer contracts	678	402

4. Other operating income

4.1 Accounting policy

Other operating income comprises income from activities outside the ordinary business of Optomed. Examples include government grants and gains from disposals of tangible and intangible assets.

The Group recognises a government grant only when:

- there is reasonable assurance that Optomed will comply with the conditions attached to the grant, and
- the grant will be received.

Income-related grants are recognised in profit or loss over the periods necessary to match them with the related costs that they are intended to compensate. They are presented under the line item Other operating income. Asset-related grants, such as government grants received for development purposes, are deducted in arriving at the carrying amount of the assets. The grant is recognised over the life of the asset as a reduced depreciation expense.

4.2 Breakdown of other operating income

During the years 2024-2025 Optomed did not receive significant grants.

In thousands of euro	2025	2024
Other operating income	5	10
Total	5	10

5. Materials and services

5.1 Breakdown of materials and services expense

Optomed has recognized 33 thousand inventory provision for non marketable items during 2025 and 61 thousand during 2024.

In thousands of euro	2025	2024
Purchase expenses	-6,661	-5,570
Change in inventories (increase +), decrease (-))	869	679
External services	-430	-483
Total	-6,222	-5,374

6. Employee benefits

6.1 Accounting policy

Employee benefits include the following:

- a) short-term employee benefits
- b) post-employment benefits
- c) other long-term employee benefits (no such benefits were provided during the financial years 2024-2025)
- d) termination benefits, i.e. benefits provided in exchange for the termination of an employment
(no such benefits were provided during the financial years 2024-2025)
- e) share-based payments (refer to Note 6.4 Share-based payment plans below).

a) Wages, salaries, fringe benefits, annual leave and bonuses are included in short-term employee benefits. They are recognised in the period in which the work is performed.

b) Post-employment benefits are payable to employees after the completion of employment. In Optomed, these benefits are related to pensions. Pension coverage of the Group is arranged through external pension insurance companies. Pension plans are classified as either defined contribution or defined benefit plans. Optomed only has defined contribution plans. A defined contribution plan is a pension plan under which Optomed pays fixed contributions into a separate entity. Optomed has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the related benefits. All other plans are classified as defined benefit plans. The contributions for defined contribution plans are recognized as employee benefit expense in those periods to which they relate. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

c) Other long-term employee benefits are all employee benefits other than short-term employee benefits, post-employment benefits and termination benefits. Examples include long-term paid absences such as sabbatical leave.

d) Termination benefits are not based on work performance but on the termination of employment. These benefits consist of severance payments. Termination

benefits result either from the Group's decision to terminate the employment or the employee's decision to accept the benefits offered by Optomed in exchange for the termination of employment. Such benefits are recognised at the earlier of: when Optomed can no longer withdraw the offer of the benefits, and when the Group recognises costs for a restructuring that involves the payment of termination benefits.

e) The Group has ten share-based incentive plans for the Group key personnel, which are share option plans. The purpose of the plans is to encourage the employees to work on a long-term basis in order to increase shareholder value, and to commit the key employees to the company. The payments for the incentives are made with equity instruments.

Share-based compensation is measured at the grant date and expensed using the straight-line method in the income statement over the vesting period. The expense

determined at grant date is based on Optomed's estimate of the number of share options to which it is assumed that rights will vest by the end of the vesting period. The fair value is determined using the Black-Scholes pricing model. The Group updates its estimate of the final number of the share options that will vest at each reporting date. Changes in this estimate are recognised in the income statement. The options will be returned to Optomed in case the employee leaves the Group before the subscription period has commenced. There are no other vesting conditions.

When the option rights are exercised, the proceeds received are recognised in accordance with the terms of the plan under Reserve for invested non-restricted equity, net of any transaction costs.

6.2 Expenses recognised in profit or loss

Option programs in effect during the financial year

2017B: 29,300 Outstanding options on December 31.2025. Subscription price EUR 3.50 per share. Subscription period July 1, 2020–December 31, 2027. Each option right entitles its holder to subscribe for one new share. Up to 29,300 shares can be subscribed for based on the option rights, corresponding to 0.1% of the company's share capital and votes.

2018C: 93,800 Outstanding options on December 31.2025. Subscription price EUR 3.50 per share. Subscription period July 1, 2020–December 31, 2027. Each option right entitles its holder to subscribe for one new share. Up to 93,800 shares can be subscribed for based on the option rights, corresponding to 0.4% of the company's share capital and votes.

2019A: 66,000 Outstanding options on December 31.2025. Subscription price EUR 3.50 per share. Subscription period July 1, 2021–December 31, 2027. Each option right entitles its holder to subscribe for one new share. Up to 66,000 shares can be subscribed for based on the option rights, corresponding to 0.3% of the company's share capital and votes.

2019C: 20,000 Outstanding options on December 31.2025. Subscription price EUR 3.50 per share. Subscription period July 1, 2020–December 1, 2027. Each option right entitles its holder to subscribe for one new share. Up to 20,000

shares can be subscribed for based on the option rights, corresponding to 0.1% of the company's share capital and votes.

2022A: 250,000 Outstanding options on December 31.2025. Subscription price EUR 4.17 per share. Subscription period January 1, 2026–December 31, 2027. Each option right entitles its holder to subscribe for one new share. Up to 250,000 shares can be subscribed for based on the option rights, corresponding to 1.2% of the company's share capital and votes.

2024A: 237,500 Outstanding options on December 31.2025. Subscription price EUR 4.62 per share. Subscription period January 1, 2026–December 31, 2028. Each option right entitles its holder to subscribe for one new share. Up to 237,500 shares can be subscribed for based on the option rights, corresponding to 1.1% of the company's share capital and votes.

2025A: 190,000 Outstanding options on December 31.2025. Subscription price EUR 3.77 per share. Subscription period January 1, 2027–December 31, 2029. Each option right entitles its holder to subscribe for one new share. Up to 190,000 shares can be subscribed for based on the option rights, corresponding to 0.9% of the company's share capital and votes.

Key terms and measurement of option plans

Plan	2017B	2018C	2019A	2019C	2022A	2024A	2025A
Maximum number of options	58,000	266,000	84,000	20,000	250 000	300 000	190,000
Number of options issued	58,000	266,000	84,000	20,000	250,000	237,500	190,000
Issued	2017	2018	2019	2019	2022	2024	2025
Vesting period	2017 - 2020	2018 - 2021	2019 - 2021	2019 - 2020	2022 - 2026	2024 - 2026	2025 - 2027
Vesting condition	Employment	Employment	Employment	Employment	Employment	Employment	Employment
Option subscription price	3.50	3.50	3.50	3.50	4.17	4,62	3.77
Fair value at grant date	2.09	2.09	2.09	2.02	1.771	2.11	0.81
Total fair value (1,000 EUR)	121	556	175	40	443	632	153

The grant-date fair value of Optomed's all option programs is determined using the Black Scholes option pricing model that takes into account the following key inputs:

- expected fair value of the underlying share EUR 0.81 - 2.11
- expected volatility 30 - 64 %
- the term of the option 1.3 - 3.7 years

Changes in outstanding share options

Pieces	2025	2024
Outstanding at January 1	736,600	890,000
Granted during the year	190,000	343,000
Forfeited during the year	-53,875	-3,000
Exercised during the year	0	-373,400
Expired during the year	-40,000	-120,000
Outstanding at December 31	832,725	736,600
Exercisable at December 31	209,100	249,100

Option subscription price during the 2025 was 3.50 EUR for exercised options. Optomed average share price during the 2025 was 3.99 EUR. In case the share options issued are fully exercised, the number of outstanding A shares will increase by 3.9%. The subscription prices will be recorded in the Reserve for invested non-restricted equity. During 2025 no options were exercised.

Expenses from share-based payment plans

Total expenses arising from share-based payment plans recognised as part of employee benefits were as follows:

In thousands of euro	2025	2024
Equity-settled share-based payments	-549	-382

7. Other operating expenses

7.1 Accounting policy

Optomed's other operating expenses include:

- expenses other than the cost of goods sold, such as travel, marketing, IT and office expenses.
- losses on the disposal of tangible and intangible assets.

7.2 Breakdown of other operating expenses

Other operating expenses also comprise changes in expected credit losses and realised credit losses. More info about credit loss accrual in 21.4. Credit risk and counterparty risk.

Audit fees	-126	-146
Other services	-16	-2
Total	-143	-149

8. Depreciation, amortization and impairment losses

8.1 Accounting policy

Depreciation and amortization is the systematic allocation of the depreciable amount of a tangible / an intangible asset over its useful life. Optomed generally applies the straight-line method. An impairment loss is the amount by which the carrying amount of an asset exceeds its recoverable amount. Refer to Notes 12. Intangible assets and 13. Tangible assets.

8.2 Depreciation, amortization and impairment losses by asset category

In thousands of euro	2025	2024
Intangible assets		
Development costs	-1,222	-1,241
Customer relationships	-222	-222
Technology	-102	-102
Other intangible assets	-70	-72
Total	-1,616	-1,636

In thousands of euro	2025	2024
Tangible assets		
Machinery and equipment	-374	-349
Total	-374	-349
Total depreciation and amortization / owned assets	-1,989	-1,985

8.3 Impairment losses

The Group recognised no impairment losses on intangible assets during financial year 2025 and 191 thousand euros in 2024. 2024 Impairment losses are due to terminated project. There were no recognised impairment losses on tangible assets during years 2024-2025.

9. Finance income and expenses

The accounting policies for financial assets and financial liabilities are presented in Note 16. Financial assets and 19. Financial liabilities.

Recognised through profit or loss

9.1 Finance income

In thousands of euro	2025	2024
Foreign exchange gains	250	657
Interest income	115	181
Other finance income	215	379
Total	580	1,217

9.2 Finance expenses

In thousands of euro	2025	2024
Foreign exchange losses	-589	-162
Interest expenses	-112	-156
Other finance expenses	-555	-458
Total	-1,256	-776
Net finance expenses	-676	441

Net financial items amounted to EUR -676 (441) thousand and consisted mainly of interest payments to financial institutions and the translation effect of Chinese RMB and USD to EUR.

9.3 Borrowing costs - government loans

Optomed has capitalised under Development costs those borrowing costs incurred from the government loans (Business Finland) granted for development activities, refer also to Note 19. Financial liabilities. The capitalisation rate used to determine the amount of borrowing costs to be capitalised was 1.0% for the year 2025, 1.13 % in 2024, being the interest rate applicable to those loans during the said annual periods. The capitalised costs amounted to EUR 17 thousand (2025) and EUR 20 thousand 2024 which were recorded as deductions to interest expenses.

10. Income taxes

10.1 Accounting policy

The income tax expense for the period consists of:

- current tax, and
- change in deferred tax assets and deferred tax liabilities.

Income tax is recognized in the income statement, except that the income tax effects of items recognized in other comprehensive income or directly in equity are similarly recognized in other comprehensive income or equity.

The current income tax charge is calculated on the basis of the taxable income determined in accordance with the tax rates and laws enacted (or substantively enacted) in the countries where Optomed operates and generates taxable income. Income taxes are adjusted with any taxes relating to previous financial years. Other taxes not based on income are included within other operating expenses. Current taxes are calculated using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Taxable profit differs from the profit reported in the consolidated income statement, since:

- some income or expense items are taxable or deductible in other years, and/or
- certain income items are not taxable or certain expense items are non-deductible for taxation purposes.

Generally deferred tax is provided using the liability method on:

- temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and
- unused tax losses or unused tax credits.

Deferred tax assets are recognised for deductible temporary differences only to the extent that it is probable that future taxable profits will be available, against which Optomed can utilise deductible temporary differences. The amount and the probability of the utilisation of deferred tax assets are reviewed at the end of each reporting period. A valuation allowance is recognized against the deferred tax asset, if the utilisation of the related tax benefit is no more considered probable. Deferred tax liabilities are usually recognized in full. However, deferred tax liability is not accounted for, if it arises from:

- the initial recognition of goodwill, or
 - the initial recognition of an asset or a liability in a transaction which is not a business combination, and
- at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax liability is recognised for investments in subsidiaries, except to the extent that Optomed is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and deferred tax liabilities are determined using tax rates (and laws) that are expected to apply when the related deferred tax asset is realized

or the deferred tax liability is settled. The applied tax rate is the rate enacted or substantively enacted by the balance sheet date in the respective countries.

10.2 Current tax

In thousands of euro	2025	2024
Current tax for the reporting year	0	0
Current tax adjustments for prior years	0	0
Change in deferred taxes	77	66
Total	77	66

10.3 Reconciliation between income tax expense in profit or loss and tax expense calculated using the Finnish corporate tax rate

In thousand euros	2025	2024
Profit before income tax	-6,718	-5,516
Tax using the Finnish corporate tax rate (20 %)	1,344	1,103
Effect of tax rate in foreign jurisdictions	22	36
Unrecognised deferred tax assets on taxable losses	-782	-727

10.6 Group's tax losses and depreciation and amortization not deducted for tax purposes

In thousands of euro	Dec 31, 2025	Dec 31, 2024
Tax losses approved by tax authorities	14,163	9,876
Depreciation and amortization not deducted for tax purposes	13,115	11,592

These tax losses relate to Optomed Plc. The Group has not recognised any deferred tax asset on these losses as at the time of preparation of these financial statements it is unlikely that these entities will generate taxable income against which the losses could be utilised before their expiration dates. The losses will expire in the years 2026-2034.

The depreciation and amortization not deducted for tax purposes relate to Optomed Plc and Optomed Software.

11. Loss per share

11.1 Accounting policy

Basic and diluted earnings (loss) per share

Basic earnings (loss) per share is calculated by dividing:

- the profit (loss) attributable to owners of the parent company
- by the weighted average number of ordinary shares outstanding during the financial year.

In calculating the diluted earnings (loss) per share, the dilutive effect of all dilutive potential ordinary shares is taken into account in the weighted average number of outstanding shares. The Group's dilutive potential ordinary shares comprise the share-based incentive plans payable in shares.

11.2 Loss per share

Diluted loss per share is not presented, as the results for the financial years 2024 and 2025 were negative and thus the dilutive instruments would have an undilutive effect on loss per share.

	2025	2024
Loss attributable to owners of the parent company (in thousands of euro)	-6,640	-5,450
Weighted average number of shares outstanding during the financial year (pcs)	19,810,521	18,675,167
Basic loss per share (EUR/share)	-0.34	-0.29

12. Intangible assets

12.1 Accounting policy

The Group's intangible assets comprise the following: a) goodwill, b) development costs, c) customer relationships and technology (identified in the Commit acquisition) and d) other intangible assets.

a) Goodwill: The excess of the

- consideration transferred
- amount of any non-controlling interest in the acquired entity, measured at fair value, and
- acquisition-date fair value of any previous equity interest in the acquired entity, over the fair value of the net identifiable assets acquired is recorded as goodwill. Goodwill reflects e.g. expected future synergies resulting from acquisitions. Goodwill is not subject to amortization but is tested annually for impairment, or more frequently if there is any indication that it might be impaired, refer to Note 12.3 below. Goodwill is carried at historical cost less accumulated impairment losses.

b) Development costs: Development is the application of research findings or other knowledge to a plan or design for the production of new or substantially improved materials, devices, products, processes, systems or services before the start of commercial production or use. Optomed capitalises such costs when all the following criteria are met:

- Optomed can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale.
- Optomed intends to complete the intangible asset and use or sell it.
- Optomed is able to use or sell the intangible asset.
- Optomed is able to demonstrate how the intangible asset will generate probable future economic benefits.

- The Group has adequate technical, financial and other resources available to complete the development and to use or sell the intangible asset
- Optomed is able to measure reliably the expenditure attributable to the intangible asset during its development. Capitalised development costs comprise all directly attributable costs (mainly labour) necessary to prepare the asset to be capable of operating in the manner intended. Optomed has also:
 - capitalised borrowing costs arisen from government loans granted for development purposes, and
 - deducted an applicable amount of major government grants received for development activities from the carrying amount.

Development expenditure that was initially expensed is not capitalised at a later date. The estimated useful life for development costs is 10 years.

Research is original and planned investigation Optomed undertakes with the prospect of gaining new scientific or technical knowledge and understanding. Such costs are expensed as incurred.

c) Customer relationships and technology: these assets were measured at fair value at the acquisition date using the multi-period excess earnings method and the relief-from-royalty method. Their estimated remaining useful lives are 10 years.

d) Other intangible assets: An intangible asset is recognised only if it is probable that the expected future economic benefits that are attributable to the asset will flow to Optomed, and the cost of the asset can be measured reliably. All other expenditure is expensed as incurred. Group's other intangible assets mainly comprise patents and trademark rights, which are amortised on a straight-line basis over their estimated useful lives (10 years).

Optomed reviews the amortization periods and the amortization methods applied at least at each financial year-end. If the expected useful life of the asset is different from previous estimates, the amortization period shall be changed accordingly. The changes of useful lives can be due to e.g. technical development, changes in demand or competition, for example.

The Group assesses, at each reporting date, whether there is an indication that an intangible asset other than goodwill may be impaired. If any indication exists, Optomed estimates the asset's recoverable amount. An impairment loss is recognised in the income statement when the carrying amount of an asset exceeds its recoverable amount.

12.2 Assumptions and estimation uncertainties – development costs

Optomed capitalises development expenditure as an intangible asset where the related criteria are met (refer to 12.1 Accounting policy above). This requires management to make judgement on when all of the criteria for capitalisation are met and when to cease capitalisation and start amortising the asset. The point at which development costs meet the criteria for capitalisation is dependent on Optomed management's judgement of, for example, the point at which technical feasibility is demonstrable.

In impairment testing the recoverable amount of development costs are determined based on value-in-use calculations. The calculations use cash flow projections approved by management covering a eight year period based on the lifecycle of the product. The cash flow projections exclude expansion investments. Revenue of certain projects are expected to grow, especially in the coming years. The discount rate is defined as WACC (weighted average cost of capital), which reflects the total cost of equity and debt while considering the asset-specific risks. Factors that affect the interest in the WACC calculation include a risk-free interest rate, the cost of borrowed capital, the risk premium on the stock market, the beta coefficient, and the industry's capital structure. The pre-tax discount rate was 15.9% (16.6%) and the post-tax discount rate 11.1% (11.9%)

The sensitivity analysis is prepared in respect of the discount rate and the terminal growth rate applied beyond the eight-year projection period. The changes in these key assumptions - holding other assumptions constant - would result in the recoverable amount of the tested assets to equal their carrying amount as at December 31, 2025.

- The pre-tax discount rate should increase by 90.4 percentage point. So that the net present value of the 8 year forecast is 0.
- The terminal growth rate for break even cannot be measured.

Based on the impairment test carried out as at December 31, 2025 the development costs were not impaired.

The Group has not recognised impairment losses on intangible assets during year 2025. In 2024 Devices-segment had EUR 191 thousand impairment losses. 2024 Impairment loss is due to terminated projects.

12.3 Reconciliation of carrying amounts

At December 31, 2025

In thousands of euro	Goodwill	Development costs	Customer relationships	Technology	Other intangible assets	Total
Cost						
Balance at January 1	4,256	17,864	2,222	1,023	1,205	26,570
Additions		1,674			66	1,740
Balance at December 31	4,256	19,538	2,222	1,023	1,270	28,309

Carrying amount at Dec 31	4,256	8,288	721	331	370	13,965

The research and development costs expensed amounted to EUR 2,190 thousand (2025) and EUR 2,041 thousand (2024), mainly comprising personnel expenses.

12.4 Impairment testing of goodwill

12.4.1 Accounting policy

For the purposes of impairment testing goodwill is allocated to the cash-generating units (CGUs) or the groups of CGUs that are expected to benefit from the business combination in which the goodwill arose. A cash-generating unit is the smallest identifiable group of assets in Optomed that generates inflows that are largely independent from the cash inflows from other assets or groups of assets. A cash-generating unit is impaired when its carrying amount exceeds its recoverable amount. The recoverable amount is:

- the higher of the asset's or CGU's fair value less costs of disposal, and
- its value in use.

whichever is greater.

Optomed determines recoverable amounts based on value-in-use calculations prepared using discounted future net cash flows.

12.4.2 Assumptions and estimation uncertainties

At each balance sheet date Optomed management assesses if there is any indication of impairment of goodwill (or other intangible, tangible asset or right-of-use asset). Review is based on indicators that measure economic performance, such as Group's management reporting as well as economic environment and market follow-up.

Such indications may include, among others:

- unexpected changes in significant factors underlying impairment tests (revenues, profitability levels and changes in prevailing interest rates), and
- changes in market conditions.

The recoverable amount determined in the testing process is based on assumptions and estimates made by management on future sales, production costs, sales growth rate and discount rate, among others.

Optomed has allocated the goodwill arisen from the Commit acquisition to the Software operating segment. This segment establishes a single cash-generating unit. The carrying amount of the assets amounted to EUR 6,972 (7,416) thousand as at December 31, 2025, including the goodwill of EUR 4,256 (4,256) thousand. In impairment testing the recoverable amount of the Software segment is determined based on value-in-use calculations. The calculations use cash flow projections approved by management covering a five-year period. Previous years forecasts have been realized according to plan. Cash flows beyond the five-year period are extrapolated using the estimated steady growth rate of 1.8 %. The cash flow projections exclude expansion investments. The discount rate is defined as WACC (weighted average cost of capital), which reflects the total cost of equity and debt while considering the asset-specific risks. Factors that affect the interest in the WACC calculation include a risk-free interest rate, the cost of borrowed capital, the risk premium on the stock market, the beta coefficient, and the industry's capital structure. The pre-tax discount rate was 13.2% (14.2%) and the post-tax discount rate 11.1% (11.9%).

The sensitivity analysis is prepared in respect of the discount rate and the terminal growth rate applied beyond the five-year projection period. The changes in these key assumptions - holding other assumptions constant - would result in the recoverable amount of the tested assets to equal their carrying amount as at December 31, 2025:

- The pre-tax discount rate should increase by 27.5 percentage point.
- The terminal growth rate for break even cannot be measured.

Based on the impairment test carried out as at December 31, 2025 the goodwill was not impaired.

13. Tangible assets

13.1 Accounting policy

Tangible assets acquired by Optomed are stated in the balance sheet at their cost. The cost comprises directly attributable incremental costs incurred in their acquisition and installation. Subsequently tangible assets are carried at cost, less any accumulated depreciation and any accumulated impairment losses. Ordinary repairs and maintenance costs are expensed during the reporting period in which they are incurred. Government grants are accounted for by reducing the carrying amount of the asset. The grant is then recognised in profit or loss over the useful life of the asset by way of a reduced depreciation charge.

Depreciation is charged so as to write off the cost of assets using the straight-line method, over their estimated useful lives, as follows:

- Production machinery and equipment: six years
- Other machinery and equipment: three years
- Office furniture: three years
- Cars: three years
- Cameras: four years

Expected useful lives and residual values are reviewed at least at each financial year-end and if they differ significantly from previous estimates, the useful lives are revised accordingly. Recognition of depreciation is discontinued when a tangible asset is classified as held for sale. The Group assesses, at each reporting date, whether there is an indication that a tangible asset may be impaired. If any indication exists, Optomed estimates the asset's recoverable amount. An impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount.

The gain or loss arising on the disposal or retirement of a tangible asset is determined as the difference between any net sale proceeds and the carrying amount of the asset and is recognised in other operating income or other operating expenses.

13.2 Reconciliation of carrying amounts

Refer to Note 14. Leases for disclosures on Group's tangible assets acquired under lease agreements.

In thousands of euro	Machinery and equipment	
	2025	2024
Cost		
Balance at January 1	4,016	3,724
Additions	616	292
Balance at December 31	4,632	4,016
Accumulated depreciation and impairment losses		
Balance at January 1	-3,364	-3,015
Depreciation	-374	-349
Balance at December 31	-3,738	-3,364
Carrying amount at January 1	652	710
Carrying amount at December 31	894	652

14. Leases

14.1 Accounting policy

The Group acts as a lessee leasing mainly business premises, cars, IT equipment as well as other machinery and equipment. As a general rule, Optomed recognises a leased asset (right-of-use asset) and a lease liability for all leases, except for short-term leases and leases of low-value items (the accounting treatment is described below). The Group assesses whether a contract is or contains a lease at inception of a contract. A contract is or contains a lease if the contract conveys the right to control the use of an identified asset for a period in exchange for consideration.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises:

- the amount of the initial measurement of the lease liability
- any lease payments made at or before the commencement date, less any lease incentives (e.g. lease-free months)
- any initial direct costs incurred by Optomed, and
- an estimate of restoration costs to be incurred by Optomed.

After the commencement date the right-of-use assets are measured at cost less any accumulated depreciation and any accumulated impairment losses and adjusted for certain remeasurements of the lease liability. The right-of-use asset is depreciated using the straight-line method, from the commencement date to the earlier of the end of the useful life of the right-of-use asset, or the end of the lease term. The estimated useful life for the business premises applied by Optomed is three years. The right-of-use asset is tested for impairment where necessary and any impairment loss identified is recorded in profit or loss.

Initially the lease liability is measured at the present value of the lease payments that are not paid at the commencement date. The discount rate used by the Group is Optomed's incremental borrowing rate. Lease payments included in the measurement of the lease liability comprise:

- fixed payments, including in substance fixed payments
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date of the contract
- amounts expected to be payable under a residual value guarantee, and
- the exercise price under a purchase option that the Group is reasonably certain to exercise.

Subsequently the lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. When a lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Optomed has elected not to recognise right-of-use assets and lease liability for:

- short-term leases (that have a lease term of 12 months or less)
- leases of low-value assets (each asset with a value of approximately EUR 5,000 or less when new).

Such assets include IT equipment as well as other machinery and equipment. The Group recognises the lease payments associated with above-mentioned leases as an expense on a straight-line basis over the lease term.

14.2 Management judgements

Some business facility leases of the Group include termination options. Optomed uses such terms in its contract management to maximise operational flexibility for its business. Termination options are considered on a case-by-case basis following a regular management assessment. The factors considered include, for

example, contractual terms and conditions for optional periods compared with market rates, the importance of the underlying asset to Optomed's operations as well as termination and replacement costs.

14.3 Amounts recognised in income statement

In thousands of euro	2025	2024
Expense relating to leases of low-value assets ¹ (that are not short-term leases)	-8	-5
Depreciation charge for right-of-use assets by class of underlying asset (business premises, cars) (included in Depreciation, amortization and impairment losses in the income statement)	-526	-514
Interest expense on lease liabilities (included in Finance expenses)	-58	-51

14.4 Amounts presented in cash flow statement

In thousands of euro	2025	2024
Total cash outflow for leases	-517	-494

14.5 Leased tangible assets

In thousands of euro	Business premises	Cars	Total
1.1.2025	1,424	32	1,456
Additions	282	0	282
Depreciation	-505	-21	-526
31.12.2025	1,201	11	1,212

In thousands of euro	Business premises	Cars	Total
1.1.2024	1,419	53	1,472
Additions	498	0	498
Depreciation	-493	-21	-514
31.12.2025	1,424	32	1,456

Leased tangible assets comprise business premises and cars and are presented as a separate line item Right-of-use assets in the consolidated balance sheet.

14.6 Lease liabilities

In thousands of euro	2025	2024
Current	442	495
Non-current	835	1,017
Total	1,277	1,512

The weighted average Optomed's incremental borrowing rate applied for discounting purposes was 3.4% in 2025, 4,7% (2024).

The above liabilities are presented on the line item Lease liabilities (non-current / current) in the consolidated balance sheet, based on their maturity. The maturity analysis is disclosed in Note 21.5 Liquidity risk.

15. Inventories

15.1 Accounting policy

Inventories are stated at the lower of cost and net realisable value. The cost of ready purchased products consists of the purchase price, including direct transportation, processing and other costs.

Cost is determined using the first-in, first-out (FIFO) method. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

In thousands of euro	2025	2024
Raw materials and consumables	2,382	1,961
Total	2,382	1,961

Optomed has recognized 33 thousand euros inventory provision for non marketable items in inventory during 2025 and 61 thousand euros during 2024.

16. Financial assets

16.1 Accounting policy

Optomed classifies financial assets as follows:

- financial assets measured at fair value through profit or loss (FVTPL)
- financial assets measured at amortized cost, and
- financial assets measured at fair value through other comprehensive income (FVOCI).

Classification of financial assets is made based on their purpose of use upon initial recognition. Classification relies on the objectives of Optomed's business model and the contractual cash flows from financial assets, or by applying the fair value option upon initial recognition. Optomed recognises all its financial assets at amortized cost.

All purchases and sales of financial assets are recognised at the trade date. For financial assets not carried at fair value through profit or loss, transaction costs are included in the initial carrying amount. Financial assets are derecognised when the Group loses the rights to receive the contractual cash flows on the financial asset or it has transferred substantially all the risks and rewards of ownership outside the Group.

Financial assets measured at amortized cost

Optomed recognises all trade receivables that are non-derivative assets at amortized cost. In the Group trade receivables are held within a business model whose objective is to collect the contractual cash flows, and those cash flows that are solely payments of principal and interest. Trade receivables are current assets that Optomed has the intention to hold for less than 12 months from the end of reporting period. Assets classified in this category are measured at amortized cost using the effective interest (EIR) method. The carrying amounts of current trade receivables are expected to substantially equal their fair values.

Optomed recognizes a loss allowance for expected credit losses on financial assets that are measured at amortized cost. The expected credit losses on trade

receivables are recorded based on Optomed's historical knowledge on trade receivables at default and payment delays due to financial difficulties. The loss allowance is assessed both on an individual basis and collectively. The expected loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's effective interest rate. This adjustment is recognised in other operating expenses and as a deduction to the carrying amount of the receivable.

All realised credit losses are recognised in profit or loss. A credit loss is reversed in a subsequent period, if the reversal can be related objectively to an event occurring after the impairment was recognised.

Optomed recognised credit loss of EUR 7 thousand during the financial year 2025 and during 2024, EUR 1,099 thousand.

Cash and cash equivalents

The Group's cash and cash equivalents consist of cash on hand, demand deposits and short-term, highly liquid investments. Items qualifying as cash equivalent have a maturity of three months or less from the date of acquisition.

16.2 Carrying amounts - at amortised cost

Current financial assets

The Group had no non-current financial assets at the end of the financial years 2024-2025.

In thousands of euro	Note	2025	2024
Trade receivables	21	2,756	2,411
Cash and cash equivalents		9,909	10,467
Total		12,665	12,878

16.3 Cash and cash equivalents

In thousands of euro	2025	2024
Cash and bank accounts	9,909	10,467
Total	9,909	10,467

17. Other receivables

In thousands of euro	2025	2024
Prepayments and accrued income	595	716
Other	123	140
Total	718	857

18. Capital and reserves

18.1 Accounting policy

The Group classifies the instruments it has issued either as equity instruments or financial liabilities based on their nature.

- An equity instrument is any contract that evidences a residual interest in the assets of Optomed after deducting all of its liabilities.
- A financial liability is an instrument that obligates Optomed to deliver cash or another financial asset, or the holder has a right to demand cash or another financial asset.

Optomed evaluates the terms of an issued compound instrument to determine whether it contains both a liability and an equity component. Such components are classified separately as financial liabilities, financial assets or equity instruments in accordance with the substance of the contractual arrangement.

18.2 Share capital and share series

18.2.1 Accounting policy

The share capital consists of the parent company's ordinary shares classified as equity. The subscription price of a share received by the company in connection with share issues is credited to the share capital, unless it is provided in the

share issue decision that a part of the subscription price is to be recorded in the Reserve for invested non-restricted equity. Transaction costs directly attributable to the issue of new shares are recorded in equity as a deduction, net of tax, from the proceeds.

The share capital of Optomed Plc amounted to EUR 80 thousand at December 31, 2025 and 80 thousand at December 31, 2024. The share capital consists of one share class.

The shares have no nominal value. All issued shares have been fully paid. Each share carries one vote.

18.2.2 Movements in share numbers and Group's equity

The table below discloses changes in the number of shares and respective changes in Group's equity.

2025

	Pieces		In thousands of euro	
	A series	Total	Share capital	Reserve for invested non-restricted equity
At January 1, 2025	19,693,297	19,693,297	80	59,608
Share issue 10.12.2025	1,760,000	1,760,000		5,565
Additions to Reserve for Invested non-equity based on option subscription and board share fee.				51
At Dec 31, 2025	21,453,297	21,453,297	80	65,224

2024

	Pieces		In thousands of euro	
	A series	Total	Share capital	Reserve for invested non-restricted equity
At January 1, 2024	18,130,397	18,130,397	80	50,936
Share issue 1.7.2024	1,500,000	1,500,000		7,322
Additions to Reserve for Invested non-equity based on option subscription and board share fee.	62,900	62,900		1,350
At Dec 31, 2024	19,693,297	19,693,297	80	59,608

18.3 Treasury shares

18.3.1 Accounting policy

The consideration paid for treasury shares, including any directly attributable transaction costs (net of taxes), is deducted from equity, until the shares are cancelled or reissued. Where such shares are subsequently sold or reissued, any consideration received, net of any directly attributable transaction costs and net of taxes, is directly recognised in equity.

The total amount of treasury shares was 22,042 shares in the end of the financial year.

18.4 Dividends

18.4.1 Accounting policy

Dividend distribution to the parent company's shareholders is recognised as a liability in the consolidated balance sheet in the period in which the dividends are approved by the company's Annual General Meeting.

Under the Finnish Limited Liability Companies Act the amount of capitalised development costs (accounted for in accordance with the Finnish Accounting Act) is deducted from unrestricted equity in calculating distributable funds.

18.5 Reserves

Reserve for invested non-restricted equity

The reserve for invested non-restricted equity comprises other equity investments and that part of the share subscription price that has not specifically been allocated to share capital.

Share premium

The share premium accrued under the previous Finnish Limited Liability Companies Act. Under the current Act the share premium is classified as restricted equity and may no longer increase. The share premium may be reduced in

accordance with the rules applying to decreasing share capital and can be used to increase the share capital as a reserve increase.

Translation differences

The reserve includes translation differences arisen from the IFRS post-transition date (January 1, 2016) translation of the financial statements of foreign operations into euro.

Retained earnings

Retained earnings are earnings accrued over the previous financial years that have not been transferred to equity reserves or issued as dividends to owners.

18.6 Capital management

Optomed's objective in capital management is to maintain optimum capital structure in order to secure normal operating conditions and to optimise cost of capital to create value to shareholders. For capital management purposes, Optomed manages equity as indicated in the consolidated balance sheet. The equity is mainly influenced through share issues and restructuring of loans and borrowings. The Group is not subject to externally imposed capital requirements. Group management and the Board of Directors of the parent company monitor Group's capital structure and liquidity development. The objective of this monitoring is to ensure Group's liquidity and flexibility of capital structure in order to fulfil the growth strategy.

Optomed monitors the development of capital structure based on equity ratio. Equity ratio is also the financial covenant of Optomed's borrowing facilities (line item Borrowings from financial institutions). For covenant accounting purposes equity ratio is calculated based on the related terms of the borrowings, refer to 19.4 Financial covenant for more details.

19. Financial liabilities

19.1 Accounting policy

Optomed classifies financial liabilities as follows:

- financial liabilities measured at amortized cost, and
- financial liabilities measured at fair value through profit or loss (FVTPL).

Optomed did not use derivative instruments during the years 2024-2025, and the Group had no other financial liabilities at fair value through profit or loss at the end of financial years 2024-2025.

Financial liabilities at amortized cost

Financial liabilities are initially recognised at fair value. Transaction costs are included in the original carrying amount. Subsequently these financial liabilities are measured at amortized cost using the effective interest rate (EIR) method. A financial liability is classified as current if Optomed does not have an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period. In respect of loans and borrowings current financial liabilities comprise the portion falling due within less than 12 months and repayments in accordance with the repayment plans.

Financial liabilities may be interest-bearing or non-interest-bearing. The Group's all financial liabilities carry interest.

A financial liability (or part of the liability) is not derecognised until the liability has ceased to exist, that is, when the obligation identified in a contract has been fulfilled, cancelled or is no longer effective.

Borrowing costs

Optomed capitalises borrowing costs that are directly attributable to creation of a qualifying asset as an addition to the cost of that asset.

- Borrowing costs are interest and other costs that Optomed incurs in connection with the borrowing of funds.
- A qualifying asset is an asset that necessarily takes a substantial period of time to get ready for its intended use.

Optomed considers capitalised development costs to be a qualifying asset. Consequently, the Group recognises those borrowing costs incurred from the government loans (from Business Finland), granted for development activities, as an addition to the carrying amount of the development cost. The capitalised borrowing costs are recorded as a deduction to interest expenses. Other borrowing costs are expensed in the period in which Optomed incurs them. Optomed ceases capitalising borrowing costs when the development project is substantially complete.

For cash flow statement purposes Optomed classifies cash flows related to capitalised borrowing costs as operating activities.

19.2 Financial liabilities measured at amortized cost

In thousands of euro	2025	2024
Non-current financial liabilities		
Borrowings from financial institutions	0	790
Government loans	371	521
Lease liabilities	835	1,017
Total	1,206	2,328
Current financial liabilities		
Borrowings from financial institutions	789	794
Government loans	274	193
Lease liabilities	442	495
Trade payables	1,159	891
Total	2,664	2,373
Total financial liabilities	3,870	4,700

The company mortgages related to the borrowings from financial institutions are disclosed in Note 22. Contingent assets, contingent liabilities and commitments.

19.3 Changes in financial liabilities

During the financial year 2025 and 2024 there were no changes in financial liabilities.

19.4 Financial covenant

Optomed's borrowings from financial institutions contain a financial covenant (equity ratio) and Optomed also has to meet certain key operative targets. The related liabilities amounted to EUR 789 thousand (at December 31, 2025) and EUR 1,583 thousand (at December 31, 2024). The borrowings will be repaid in accordance with the repayment schedule.

Optomed has to comply with the financial covenant terms specified in the loan agreement terms at the financial year-end. Equity ratio is calculated using the agreed formula. The table below summarises the Group's financial covenant term and compliance over the financial years 2024-2025. Covenant accounting purposes equity ratio is calculated, based on the related terms of the borrowings.

	Covenant term	Actual ratio	Applicable level
OP loan			
Equity ratio			
At December 31, 2025	35%	88.8%	Optomed Group
At December 31, 2024	35%	87.1%	Optomed Group

OP loan equity ratio calculation formula: Adjusted equity/Balance sheet total-received advances-Goodwill

Optomed was in compliance with the covenant as at December 31, 2024 and as at December 31, 2025.

19.5 Government loans - borrowings costs

Optomed has capitalised borrowing costs incurred from the government loans granted for development activities in the balance sheet under Development costs. Details are disclosed in Note 9.3 Borrowing costs - government loans.

19.6 Fair values - financial liabilities measured at amortized cost

Optomed considers that the carrying amounts of the financial liabilities measured at amortized cost substantially equal to their fair values. This estimate corresponds to the fair value hierarchy Level 3, as the measurement of the said liabilities is based on Optomed management view. The fair value hierarchy is presented in Note 1.2.3 Fair value measurement.

20. Other payables

In thousands of euro	2025	2024
Accrued expenses	2,659	2 351
Prepaid income	44	5
Other	1,226	854
Total	3,929	3,210

21. Financial risk management

21.1 Principles of financial risk management

Optomed's financial risks consist of liquidity risk, interest rate risk, foreign exchange transaction risk, foreign exchange translation risk and counterparty credit risk.

The Group manages centrally loan negotiations for the parent company and the subsidiaries, for example, and projects the financing requirements for the next 12 months on a rolling basis, in order to ensure long-term liquidity. The Group also handles negotiations in respect of letters of credit on a centralised basis.

The objective is to ensure that the Group has liquidity for outgoing commitments at all times and that the financing portfolio is well diversified. The financing portfolio should also be flexible in case of changes in Optomed's business operations.

The Board of Directors of the parent company has the following responsibilities:

- reviewing and approving the Group's risk management policy and the Group's strategy concerning external financing and financial risk management on an annual basis.
- evaluating and approving new financial instruments and arrangements.
- delegating the authority to undertake financial risk management and financing activities to the CEO and CFO.
- reviewing the Group's risk exposures on a monthly basis, and
- reviewing any policy breaches.

Currently letters of credit, as well as non-current loans and borrowings from financial institutions are the only approved financial instruments.

Subsidiaries should maximise their long-term performance by optimising their working capital structure. Basic financial management operations are delegated to the subsidiaries, such as payment transactions and debt collection.

21.2 Foreign exchange transaction risk and foreign exchange translation risk

Due to its international operations, Optomed is exposed to transaction risks arising from foreign currency positions and risks from investments denominated in foreign currencies translated into the functional currency of the parent company.

The Group's foreign exchange translation risk is defined as the negative effect of movements in exchange rates on the value of a foreign subsidiary's assets when

those values are translated into the reporting currency of the parent company. The Group has subsidiaries in China and USA. So far, the translation difference has not been a significant item, and thus the Group has not hedged this risk by using currency derivative instruments.

Optomed's trade receivables and trade payables may be denominated in foreign currencies and thus prone to foreign exchange transaction risk. Foreign exchange transaction risk may also arise from tangible assets subject to price changes due to volatility in exchange rates.

The Group has foreign currency positions denominated in US Dollar (USD). Transaction is managed by actively monitoring currency positions, i.e. absolute amounts. Should the absolute amounts for currency positions increase significantly, Optomed may consider using currency derivative instruments for hedging purposes, where necessary.

21.2.1 Currency risk exposure

In thousands of euro	USD	CNY
At December 31, 2025		
Gross trade receivables	1,799	0
Trade payables	484	0
Total	2,283	0
At December 31, 2024		
Gross trade receivables	1,274	0
Trade payables	283	0
Total	1,558	0

21.2.2 Sensitivity analysis on exchange rate movements

In thousands of euro	Income statement	
	strengthening	weakening
At December 31, 2025		
Gross trade receivables		
+/- 10 % change in USD	180	-180
+/- 10 % change in CNY	0	0

+/- 10 % change in USD	-48	48
+/- 10 % change in CNY	0	0
Total net effect	123	-123
In thousands of euro	strengthening	weakening
At December 31, 2024		
Gross trade receivables		
+/- 10 % change in USD	127	-127
+/- 10 % change in CNY	0	0
Trade payables		
+/- 10 % change in USD	-28	28
+/- 10 % change in CNY	0	0
Total net effect	99	-99

21.2.3 Average rates and closing rates for financial years used in consolidated financial statements

	Average rate	Closing rate	Average rate	Closing rate
	2025	2025	2024	2024
EUR/USD	0.89	0.85	0.92	0.96
EUR/CNY	0.12	0.12	0.13	0.13

21.3 Interest rate risk

Optomed's interest rate risk is primarily derived from outstanding floating-rate borrowings from financial institutions. Interest rate risk is not significant. The Group's revenues and operational cash flows are to a large extent independent of fluctuations in interest rates.

Optomed's loans and borrowings carry variable interest. The Group had interest-bearing financial liabilities totaling EUR 1,434 thousand (at December 31, 2025) and EUR 2,297 thousand (at December 31, 2024). Those liabilities are linked to Euribor rates (0 to 12 months). The weighted average interest rate was 2.3% (2025) and 3.6% (2024).

Optomed manages interest rate risk by projecting its outstanding net debt for the next 12 months on a rolling basis. In addition, the Group uses likely interest rate scenarios to identify the effect interest rate risk could have on Optomed's result and key figures. As the interest rate risk is not significant for the Group, Optomed has not used derivative instruments to hedge financial liabilities against changes in market interest rates.

The following interest rate sensitivity analysis presents how Optomed's interest expenses on borrowings from financial institutions would change following a change of 1 percentage point (100 basis points) in reference interest rates. In respect of the government loans a change of 3 percentage points was applied

since only a change of at least 3 percentage points would increase the Group's interest expenses, based on the loan terms. The effect of decrease in interest expenses of 3 (three) percentage points – is excluded from the sensitivity analysis, as the reference rate cannot be negative.

21.3.1 Cash flow sensitivity due to interest rates

In thousands of euro	Income Statement	
	100 bps change	300 bps increase
At December 31, 2025		
Borrowings from financial institutions	+7,-7	
Government loans		25
At December 31, 2024		
Borrowings from financial institutions	+6,-6	
Government loans		33

21.4. Credit risk and counterparty risk

Credit and counterparty risk arise from a counterparty not being able to fulfil its contractual requirements, and thus resulting in a loss to the creditor. Trade receivables are the main driver of credit and counterparty credit risk. Counterparty risk results from receivables from companies with which the Group provides credit.

A Chinese customer, from whom Optomed has significant trade receivables, has failed to make several payments since the second half of 2023. As a result, the trade receivable has been written down at the end of Q4 2024. Total credit loss is EUR 1,099 thousand.

Optomed manages counterparty credit risk by using credit limits approved by the Board of Directors and only dealing with authorized counterparties when it comes to financing activities such as letters of credit. Optomed has policies in place to ensure that products are sold and services provided only to those clients with appropriate credit history. Client credit data is reviewed prior to the signing of the agreement.

Receivable collection and follow-up are performed actively. The Group also manages counterparty credit risk with advance payments and letters of credit. The maximum exposure to credit risk at the end of the financial year is the carrying amount of financial assets.

The following tables disclose credit exposure per geographical area, aging analysis for trade receivables and related expected credit losses (ECL). The loss allowance has been recorded in accordance with the tables presented below.

21.4.1 Credit exposure per geographical area

In thousands of euro	Carrying amount	
	2025	2024
Gross trade receivables from companies		
Finland	1,049	1,063
Rest of the Europe	168	85

Specific loss allowance	0	100%	0
Total	2,427		15

Trade receivables related to specific loss allowance were written down at the end of 2024

21.4.3 Reconciliation of loss allowance

In thousands of euro	2025	2024
Balance at January 1	15	809
Net remeasurement of loss allowance	48	-794
Balance at December 31	63	15

The table below analyses financial liabilities based on their contractual maturities. The amounts disclosed are undiscounted, comprising both interest payments and repayments of capital.

Changes in expected credit losses and realised credit losses are recognised in the income statement under Other operating expenses. Company had realized EUR 7 thousand credit losses in 2025 and 1,099 thousand in 2024.

21.5 Liquidity risk

Liquidity risk is incurred from a potential mismatch between Optomed's liquid assets and financing requirements. The company adheres to careful liquidity risk management and aims to ensure sufficient liquidity even in difficult circumstances. The Group manages liquidity risk by ensuring that non-current liabilities have different maturities and by limiting individual receivables. Optomed also aims at ensuring liquidity through credit instruments. The liquidity of the company is monitored and forecasted over a 12-month period and, if necessary, short-term liquidity is monitored. Liquidity is followed up on a rolling basis and any changes are addressed promptly.

The liquidity reserve comprises highly liquid assets that can be used without delay to cover financial obligations at all times. Optomed aims at ensuring that it always has the amount of liquid funds available to fund operations. The liquidity reserve includes the following components: cash and cash equivalents, liquid investments and credit limits.

21.5.1 Contractual maturities of financial liabilities

In thousands of euro	Total	0-3 months	3-12 months	1-3 years	3-5 years	Over 5 years
At December 31, 2025						
Borrowings from financial institutions	804	205	599			
Government loans	853	162	284	239	168	
Lease liabilities	1,277	130	312	835		
Trade payables	1,159	1,159				
Total	4,092	1,655	1,195	1,074	168	
In thousands of euro	Total	0-3 months	3-12 months	1-3 years	3-5 years	Over 5 years
At December 31, 2024						
Borrowings from financial institutions	1,682	217	636	829		
Government loans	752	34	166	277	205	71
Lease liabilities	1,512	124	371	1,017		
Trade payables	891	891				
Total	4,838	1,265	1,174	2,124	205	71

If the covenants are breached, the financial institutions has the right to immediately terminate the contracts or require repayment and/or alternatively the right to increase the marginal for the borrowings and obligations by 2 percentage points. The covenant agreement is in force as long as Optomed Plc has unpaid debt, obligations or other commitments. For more details about covenant terms refer to 19.4. Financial covenant.

For more details see note 19.3 Changes in financial liabilities.

The lender has no right to demand for repayment, except in the event of a breach of the covenant (refer to Note 19.4 Financial covenant). The borrowings can be renegotiated.

22. Contingent liabilities, contingent assets and commitments

22.1 Accounting policy

A contingent liability arises when:

- there is a possible obligation that arises from past events and whose existence will be confirmed by a future event that is outside the control of Optomed
- there is a present obligation that arises from past events, but probably will not require an outflow of resources, or
- Optomed cannot make a sufficiently reliable estimate of the amount of a present obligation.

Contingent liabilities are not recognised, but require disclosure unless the possibility of outflow is remote.

A contingent asset arises when:

- the inflow of economic benefits to Optomed is probable, but not virtually certain, and
- occurrence depends on an event outside the control of Optomed.

Contingent assets require disclosure only. If the realisation of income is virtually certain, the income item is recognised.

22.2 Collaterals

In thousands of euro	2025	2024
Liabilities secured under company mortgages given by Optomed¹		
Borrowings from financial institutions, current	1,063	987
Borrowings from financial institutions, non-current	371	1,310
Total	1,434	2,297
Collaterals given by collateral type		
Borrowings from financial institutions, company mortgages given	8,700	8,700
Other collaterals given	800	800
Total	9,500	9,500

¹ Nominal values of the borrowings, which differ from the amounts recognised in the consolidated balance sheet, measured at amortised cost.

22.3 Guarantees

2025: Delivery guarantee, Fabrinet Pte Ltd. USD 800 thousand.

2024: Delivery guarantee, Fabrinet Pte Ltd. USD 800 thousand.

22.4 Legal proceedings and disputes

Optomed was not involved in any legal proceedings nor had any disputes during the financial years 2024-2025.

22.5 Contingencies attaching to government grants

Non-compliance with the conditions attached to the EU Horizon 2020 funding programme may result in, for example, the rejection of ineligible costs or reduction of the grant.

23. Related party disclosures

23.1 Accounting policy

The parent company Optomed Plc's related parties include the following:

- its subsidiaries
- key management personnel, comprising the members of the Board of Directors, CEO and the Group Management
- Team member, entities, over which the above-mentioned persons have control, joint control or significant influence
- close family members of the above-mentioned persons

The related party transactions disclosed consist of transactions carried out with related parties that are not eliminated in the consolidated financial statements.

23.2 Key management personnel compensation

The amounts disclosed in the tables below represent the expenses recognised in those financial years. Salary amounts include any fringe benefits. The CEO and the Group Management Team members are entitled to the statutory pension, and the retirement age is determined by the Finnish statutory pension system.

In thousands of euro	2025	2024

Accounting policies

Optomed Oyj financial statements have been prepared in accordance with the Finnish Accounting Act (FAS)

Valuation principles and methods

Valuation principles and methods of non-current assets

Tangible and intangible assets are recognised in the balance sheet at cost less depreciation according to plan. Cost includes variable expenditure relating to the acquisition and production of the assets. Grants received are deducted from the cost. Depreciation according to plan is calculated using the straight-line method based on the useful life of the assets. Depreciation is started at the month when the asset is taken into use.

The depreciation periods are as follows:

Intangible assets 5-10 years Machinery and equipment 3-6 years.

The cost of tangible and intangible assets whose probable useful life is less than 3 years or whose value is low (less than 1,200.00 €) is recognised as an expense as incurred expense.

Valuation of stocks

Stocks are recognised by using the FIFO method at cost, reacquisition cost, or probable selling price, whichever lower. Cost includes, in addition to variable costs, an appropriate portion of fixed costs attributable to the purchase and production or construction of the asset.

Measurement of financial instruments

Financial instruments are measured at the lower of cost or probable value. Investment funds are measured at fair value.

Recognition of development costs and long-term expenditure

Company has capitalized R&D costs relating to new product development according to Finnish Accounting Act (KPL 5:8§). Capitalized costs include personnel

and other costs that directly relate to developing the product to its intended use. Capitalized R&D costs are depreciated during their estimated useful life that is 10 year straight line depreciation.

Change in the presentation of the profit and loss account or balance sheet

Increase or decrease in stocks is partly included in the purchases during financial year. This accounting principle has no material effect to the assessment of the company's performance and financial position.

Preparation of the cash flow statement

The cash flow statement was drawn up in accordance with the Accounting Board's general guideline (30 Jan 2007). Cash flow from operating activities is indicated on indirect method.

Notes to assets

Amortization period for capitalised development expenditure

Development costs: Development is the application of research findings or other knowledge to a plan or design for the production of new or substantially improved materials, devices, products, processes, systems or services before the start of commercial production or use. Optomed capitalises such costs when all the following criteria are met:

- Optomed can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale.
- Optomed intends to complete the intangible asset and use or sell it.
- Optomed is able to use or sell the intangible asset.
- Optomed is able to demonstrate how the intangible asset will generate probable future economic benefits.

- The Group has adequate technical, financial and other resources available to complete the development and to use or sell the intangible asset
- Optomed is able to measure reliably the expenditure attributable to the intangible asset during its development.

Capitalised development costs comprise all directly attributable costs (mainly labour) necessary to prepare the asset to be capable of operating in the manner intended. Optomed has also:

- capitalised borrowing costs arisen from government loans granted for development purposes, and
- deducted an applicable amount of major government grants received for development activities from the carrying amount.

Development expenditure that was initially expensed is not capitalised at a later date. The estimated useful life for development costs is 10 years.

Amortization period for capitalised intangible rights and other long-term expenditure

An intangible asset is recognised only if it is probable that the expected future economic benefits that are attributable to the asset will flow to Optomed, and the cost of the asset can be measured reliably. All other expenditure is expensed as incurred. Depreciation times and methods of other intangible assets are:

License fees and computer software	5 year straight-line
Patents	10 year straight-line
Trademarks	10 year straight-line

Optomed has recognized 33 thousand inventory provision for non marketable items in inventory during 2025 (61 thousand during 2024).

Stocks	31 Dec 2025	31 Dec 2024

This document is an English translation of the Finnish auditor's report. Only the Finnish version of the report is legally binding.

Auditor's Report

To the Annual General Meeting of Optomed Oyj

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Optomed Oyj (business identity code 1936446-1) for the year ended 31 December, 2025. The financial statements comprise the consolidated balance sheet, income statement, statement of comprehensive income, statement of changes in equity, statement of cash flows and notes, including material accounting policy information, as well as the parent company's balance sheet, income statement, statement of cash flows and notes.

In our opinion

- the consolidated financial statements give a true and fair view of the group's financial position, financial performance and cash flows in accordance with IFRS Accounting Standards as adopted by the EU
- the financial statements give a true and fair view of the parent company's financial performance and financial position in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements.

Our opinion is consistent with the additional report submitted to the Audit Committee.

Basis for Opinion

We conducted our audit in accordance with good auditing practice in Finland. Our responsibilities under good auditing practice are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report.

We are independent of the parent company and of the group companies in accordance with the ethical requirements that are applicable in Finland and are relevant to our audit, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

In our best knowledge and understanding, the non-audit services that we have provided to the parent company and group companies are in compliance with laws and regulations applicable in Finland regarding these services, and we have not provided any prohibited non-audit services referred to in Article 5(1) of regulation (EU) 537/2014. The non-audit services that we have provided have been disclosed in note 7.3 to the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Materiality

The scope of our audit was influenced by our application of materiality. The materiality is determined based on our professional judgement and is used to determine the nature, timing and extent of our audit procedures and to evaluate the effect of identified misstatements on the financial statements as a whole. The level of materiality we set is based on our assessment of the magnitude of misstatements that, individually or in aggregate, could reasonably be expected to have influence on the economic decisions of the users of the financial statements. We have also taken into account misstatements and/or possible misstatements that in our opinion are material for qualitative reasons for the users of the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of

the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The significant risks of material misstatement referred to in the EU Regulation No 537/2014 point (c) of Article 10(2) are included in the description of key audit matters below.

We have also addressed the risk of management override of internal controls. This includes consideration of whether there was evidence of management bias that represented a risk of material misstatement due to fraud.

THE KEY AUDIT MATTER**HOW THE MATTER WAS ADDRESSED IN THE AUDIT**

Goodwill (Basis of Preparation for the consolidated financial statements and Notes 12.3 and 12.4 to the Financial Statements)

- The carrying amount of goodwill in the consolidated financial statements amounted to EUR 4,256 thousand as at December 31, 2025, accounting for 13 % of the total assets and 18 % of total balance of equity.
- Goodwill is tested for impairment by the management annually or more frequently. Impairment is recorded in case the carrying amount exceeds the asset's recoverable amount.
- For purposes of impairment testing, the recoverable amount is determined by Optomed based on value in use. The projected cash flows underlying the estimates made involve an element of management judgment regarding profitability of operations, long-term growth factors and interest rates applicable to the discounting of cash flows.
- Resulting from management judgment underlying estimates and the significance of the book value of goodwill, the valuation of goodwill is perceived as a key audit matter.

Our audit procedures included, among others:

- We have assessed the key assumptions made by the management such as profitability of operations, interest rates and long-term growth factors. In the course of our audit of the estimates we have assessed the projections prepared by management in comparison with realized cash flows and employed professional judgment in the testing of key assumptions and their effect on the sensitivity analyses.
- We involved KPMG's valuation specialists in the audit for assessment of the appropriateness of the assumptions used and the technical integrity of the calculations. The procedures have included a comparison to general market and industry-specific forecasts.
- In addition, we assessed the appropriateness of the disclosures to the financial statements relating to goodwill and impairment testing.

Capitalized development costs (Basis of Preparation for the consolidated financial statements and Notes 12.1, 12.2 and 12.3 to the Financial Statements)

- The development of screening devices is a key part of Optomed Group operating model. It requires lot of development work before launching the products. Optomed capitalizes such costs when all the financial statement regulation criteria are met and those will generate probable future economic benefits. The carrying amount of capitalized development costs in the consolidated financial statements amounted to EUR 8,739 thousand as at December 31, 2025.
 - Optomed capitalizes development expenditure as an intangible asset where all the related criteria mentioned in basis of preparation are met.
 - This requires management to make judgement on when all of the criteria for capitalization are met and when to cease capitalization and start amortising the asset.
 - The carrying amount of capitalized development costs is amortized as a straight-line amortization over 10 years of economic life and consequently the capitalized costs have a significant impact on the company's level of operating profit.
 - Following from the element of management judgment in the capitalized development costs and the related amortizations, the significance of book value of the asset and the effect on the result of operations, the appropriateness of capitalized development costs is perceived as a key audit matter.
- Our audit procedures included, among others:
- We have assessed the accounting process of capitalizing the development costs of screening devices. We have assessed if the capitalized development expenses in the financial period have met all the criteria.
 - We have assessed the appropriateness of the accounting principles related to capitalization, valuation and the amortization period of development expense.
 - We have assessed critically the judgements and assumptions made by the management decisions related to capitalization, cease of capitalization and amortization of the assets.
 - We have tested the correctness of capitalized screening device development costs by sample tests and analytical substantive audit procedures.
 - We have assessed the appropriateness of valuation of capitalized development costs and the amortization period by reviewing the profit projections of the most significant projects and the technical accuracy of the calculations and employed professional judgment in the testing of key assumptions and their effect on the sensitivity analysis.
 - We involved KPMG's valuation specialists in the audit for assessment of the appropriateness of the assumptions employed and the technical accuracy of the calculations.
 - In addition, we assessed appropriateness of the disclosures to the financial statements relating to capitalized development costs.

Revenue recognition and trade receivables (Basis of Preparation for the consolidated financial statements and Notes 3, 16.2, 21.4.2 and 21.4.3 to the Financial Statements)

- The net sales for the Group, total EUR 17,096 thousand, comprised of sales of medical screening devices and solutions to wholesale dealers and of sales of software services.
 - Optomed recognizes revenue to reflect the transfer of negotiated goods or services to customers in the amount of compensation Optomed expects to be entitled to in exchange of goods and services.
 - The sales revenue from sales of screening devices and solutions are recognized when the performance obligation is fulfilled by the delivery of goods to wholesale dealer and control is transferred to customer.
 - For the sales of software services, revenue is recognized over a period of time; for licensing agreements, at a point of time as control is transferred to customer; and for installation solutions, at the point of time as control is transferred and the end product is at the customer's disposal.
 - Optomed has a significant amount of trade receivables, EUR 2,756 thousand, with payment time of different lengths. There is always a credit risk in trade receivables.
 - The group recognizes all trade receivables at amortised cost. The expected credit losses on trade receivables are recorded based on Optomed's historical knowledge of trade receivables at default and payment delays due to financial difficulties. The loss allowance is assessed both on an individual basis and collectively.
 - Following the variety of types of sales proceeds collected by the Group, revenue recognition and the estimation risk related valuation of trade receivables are perceived as a key audit matter.
- Our audit procedures included, among others:
- Our audit procedures have included the assessment of the internal control environment related to monitoring sales processes and overdue trade receivables and testing of effectiveness of key sales controls identified. Additionally, we have performed substantive audit procedures.
 - We have tested the recording of sales transactions as well as the function of recording and invoicing of sales transactions and evaluated the correctness of sales proceeds by testing the accruals of sales between periods.
 - We have performed substantive audit procedures for trade receivables in the consolidated financial statements to evaluate the valuation of trade receivables.
 - We have evaluated the reasonability of estimates related to valuation of trade receivables, especially regarding overdue trade receivables.
 - In addition, we assessed the appropriateness of the disclosures to financial statements relating to sales revenue and trade receivables.

Responsibilities of the Board of Directors and the Managing Director for the Financial Statements

The Board of Directors and the Managing Director are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as adopted by the EU, and of financial statements that give a true and fair view in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors and the Managing Director are responsible for assessing the parent company's and the group's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting. The financial statements are prepared using the going concern basis of accounting unless there is an intention to liquidate the parent company or the group or cease operations, or there is no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with good auditing practice will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with good auditing practice, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the parent company's or the group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the Board of Directors' and the Managing Director's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the parent company's or the group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the parent company or the group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events so that the financial statements give a true and fair view.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Reporting Requirements

Information on our audit engagement

We were first appointed as auditors by the Annual General Meeting on 11 May 2016, and our appointment represents a total period of uninterrupted engagement of 10 years. Optomed Oyj has become a Public Interest Entity 5 December 2019 and we have been auditors all that time.

Other Information

The Board of Directors and the Managing Director are responsible for the other information. The other information comprises the report of the Board of Directors and the information included in the Annual Report, but does not include the financial statements or our auditor's report thereon. We have obtained the report of the Board of Directors prior to the date of this auditor's report, and the Annual Report is expected to be made available to us after that date. Our opinion on the financial statements does not cover the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. With respect to the report of the Board of Directors, our responsibility also includes considering whether the report of the Board of Directors has been prepared in compliance with the applicable provisions.

In our opinion, the information in the report of the Board of Directors is consistent with the information in the financial statements and the report of the Board of Directors has been prepared in compliance with the applicable provisions.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.
